

The Yun Family's Ninth Child is an Imp! Chapter 2606

However, it was clear that the tester was not going to tell them the answer. A white light flashed before everyone's eyes and they had already arrived outside the mountain gate of the primordial chaos sect.

The disciples on duty lined up everyone in a long line and began the test in turn.

Seeing that the disciples on duty were all old acquaintances, Yun chujiu walked through the back door and lined up at the back of the line.

Knowing yourself and knowing your enemy, you will always be victorious. First, take a look at the tests of the people in front of you so that you can be mentally prepared.

There was a stone pi xiu on each side of the Majestic Mountain Gate of the Primordial Chaos sect. The sculptures were lifelike.

Yun chujiu could not help but curse, pui! ! This primordial chaos sect was indeed stingy. They had two Stone Pi Xiu to guard the door. wasn't it only allowed to enter and not to leave? !

Just as Yun chujiu was cursing in her heart, the first candidate began to step forward to take the test.

The candidate had just stepped into the mountain gate of the primordial chaos sect when his entire body was sent flying. The Stone Pixiu on the east side opened and closed its mouth as it said disdainfully, "So smelly! So Smelly!"

The Stone Pixiu on the west side said arrogantly, "This person's character is vile. He is not worthy of becoming a disciple of our primordial chaos sect."

Yun Chujiu touched her chin. Oh My, these two Stone Pi Xiu are quite interesting!

The second candidate stepped into the mountain gate with trembling feet. Although he was not sent flying this time, he was also sent flying by a force.

"As timid as a mouse! Scram!" The Stone Pi Xiu on the east side said with disdain.

"A person with small guts has limited prospects. He is not worthy of becoming a disciple of our primordial chaos sect." The Stone Pi Xiu on the west side still had an old-fashioned expression.

The third candidate had learned from the previous lesson. He mustered up his courage, raised his head, and stepped into the mountain gate. He did not expect that there would be no resistance and that he would successfully enter the mountain gate.

“His aptitude is passable. He is not too useless,”the Stone Pi Xiu on the east side said casually.

“His aptitude and intelligence barely meet the entry criteria,”the Stone Pi Xiu on the west side said faintly.

..

After that, the process of the test was basically the same. Some were sent flying, some were allowed to pass, and occasionally, there would be words of praise, such as good aptitude and a bright future.

Yun chujiu pondered in her heart. She estimated that the allocation of inner disciples was based on the comments of the two stone pixiu.

To be honest, she was not worried about the previous tests. After all, she thought that her spiritual power was not enough to supplement her brain. However, the two stone pixiu in front of her were really difficult to deal with.

They were not demonic beasts, so she did not know if they would be easy to fool. Moreover, it was said that this primordial chaos sect had been around for hundreds of thousands of years. These two stone pixiu might be even older than the primordial chaos sect, so they would definitely not be easy to fool.

Moreover, even if she could fool herself into going in, Xue Wuji and the other two would not be able to!

What should they do?

Before Yun Chujiu could come up with a solution, it was already her turn.

Before she could take the test, she heard the voice of the tester from before saying, "500 people are full. The four of you don't need to take the test anymore. You are eliminated."

Yun Chujiu was stunned at first, and then she was furious!

What? Are You F * cking kidding me? !

I went through a lot of trouble to pass both the test and the sixth round of the test, but I was already informed that I was eliminated? What a bully!

Xue Wuji and the other two were also shocked and angry. They were actually eliminated just like that? ! Wasn't this reason too weird? !

Before the four of them could say anything.., they heard the tester say with slight disdain, “Why? Are you not convinced? If you want to blame someone, it’s because you’re at the back of the line. Cultivation not only depends on strength, but also on luck. If your luck isn’t good, is it because of me?”
