

The Yun Family's Ninth Child is an Imp! Chapter 2607

"Bullsh * T! It's clearly you guys who didn't agree on the rules beforehand! What nonsense about strength and luck! Don't you feel indignant because we passed the test because our spiritual power is low? !"!

Ptui! What super sect that has existed for hundreds of thousands of years? It turns out that even the entrance test has some tricks up its sleeve. It's really disappointing! "Since that's the case, we don't care about entering the chaos origin sect anymore. Anyway, the killing origin sect is about to recruit disciples. Let's go and apply for the killing Origin sect!" Yun chujiu jumped her feet and cursed.

This fellow had already thought it through. If the Chaos Origin sect wanted to deal with her, she would take out the high-grade spirit weapon that Master Baili had given her. As long as she met Master Baili, she would have a way to escape.

At the very least, she still had the cheap master, Patriarch Yuantian. It would scare them to death!

Of course, this fellow was not prepared to use her trump card, Patriarch Yuantian, as a last resort. After all, she was too weak right now. It might not be a good thing to say it out loud.

The tester, who was also elder Jing, was so angry that he almost fainted after being scolded by Yun Chujiu. His head buzzed, and he was stunned for a moment.

Since this was the last round of the test, the higher-ups and many disciples of the primordial chaos sect were watching. One could imagine how awkward elder Jing's situation was.

Although he felt that his words were valid, he still felt a little guilty. After all, he didn't want Yun Chujiu and the others to enter the primordial chaos sect.

Master Baili frowned slightly. He wouldn't have interrupted such a test, but when he heard that Yun Chujiu was among the remaining four people outside, he asked someone to call elder Jing to him.

"Elder Jing, although that little girl's words are rude, her words are not unreasonable. No matter what, we should let them take the test. If they can't pass, they have nothing to say."

Seeing Master Baili's words, elder Jing naturally didn't dare to disobey. He could only coldly say, "Alright, since you insist on taking the test, then let's begin."

Yun chujiu curled her lips. Indeed, they bullied the weak and feared the strong. People couldn't be too weak.

Yun chujiu straightened her back. Just as she stepped into the mountain gate, she heard the two Stone Pi Xiu say at the same time, "Eh? Heavenly Thunder Spirit Root?!"

Then, the Stone Pi Xiu on the east side said, "What's the point of cultivating the Heavenly Thunder Spirit Root, which is not allowed by the Heavenly Dao? Go back and wait for your death!"

"The higher the spiritual power of the cultivator with the heavenly thunder spirit root, the greater the risk of being killed by the Heavenly Dao. You are not suitable to enter the primordial chaos sect. Please go back," the Stone Pi Xiu on the west side said politely.

As soon as he said that, Yun Chujiu was pushed by a huge force.

Seeing this, elder Jing heaved a sigh of relief, then, he said sarcastically, "Now, you're finally convinced, aren't you? Do you still want to take the test for the last three? We're still busy with the distribution of new disciples. If you don't want to take the test, then go ahead!"

Yun chujiu stood up and rubbed her little buttocks. Then, she said to Xue Wuji and the other two in a low voice, "You guys go and try. If you pass, I have my own way to get in."

Xue Wuji nodded and stepped into the mountain gate of the primordial chaos sect.

He did not expect to walk in unimpeded. The Stone Pi Xiu on the east side said, "Although the spiritual power is too low, it is a mutated wind spirit root. It is not bad."

The Stone Pi Xiu on the west side gave a much better evaluation. "A mutated wind spirit root is indeed hard to come by. If you cultivate diligently, you will definitely be able to build up your strength."
