

The Yun Family's Ninth Child is an Imp! Chapter 2614

The level of the chaos origin sect was very strict. Not to mention the inner disciples, even the outer disciples could order the servants to do whatever they wanted. Therefore, the four of them had no choice but to walk to the side of that disciple.

That disciple had an arrogant expression on his face. "Where are the four of you working as servants? Why are you strolling around here?"

"We are the servants of the big kitchen and are in charge of breakfast. Therefore, we took the opportunity to come over and familiarize ourselves with the situation of the sect," said Yun Chujiu.

That person frowned. "From the Big Kitchen? No wonder the spiritual power is so low! Forget it, just the four of you! Come with me!"

"Senior brother, what do you want us to do?"

"You'll know when we arrive. Why are you talking so much nonsense?!" The disciple said impatiently.

Yun chujiu didn't say anything. She was struck by lightning for acting cool. Just you wait!

That disciple summoned his sword and rose into the air. He said to the four people impatiently, "Follow me!"

Xue Wuji took out his sword and rode it up.

Jin Zhi took out her sword and rode it up.

Ye Bingyu took out her sword and rode it up.

A certain jiu, HMM, took out her chopping board and rode it up.

The disciple looked behind him and almost fell off the sword! What the hell was this? ! There was someone riding a chopping board?

When they passed by other places on the road, some disciples looked up and were stunned!

Damn, the chopping board had turned into a spirit!

Some people recognized Yun chujiu and pointed at her. "Isn't that little girl the Weirdo in the entrance test? She is indeed a weirdo. Everyone else rides a sword, but she rides a chopping board."

"Don't tell me that the chopping board is much bigger than a sword, and it seems to be more stable than riding a sword. Besides, that little girl is so rich, so the chopping board is probably not cheap."

"Eh? isn't Mu Wu from Tianji Peak in front of them? Did the peak master of Tianji Peak take a fancy to those four people and transfer them to Tianji Peak?"

..

Mu Wu landed on Tianji Peak's square with Yun Chujiu and the other two, and he said arrogantly, "Tianji Peak has strict rules. be honest. If you violate the rules, you will suffer!"

Yun Chujiu was puzzled. Why did Mu Wu go all the way to look for them? Why didn't he just look for them at this peak? What did he want them to do?

Yun Chujiu and the other three followed Mu Wu to a lush garden. Mu Wu took out his identity jade token and opened the door, signaling Yun Chujiu and the other three to follow him in.

The garden was filled with golden silk mulberry trees. Every leaf of these mulberry trees had golden veins on them, just like golden silk. Under the sunlight, they looked beautiful.

However, there were annoying rustling sounds in the beautiful scenery.

Yun chujiu took a closer look and saw many silver-white snow silkworms gnawing on the golden silk mulberry leaves. Yun Chujiu didn't have a good impression of these white and chubby worms, so she turned her gaze to Mu Wu

"Did you see that? These snow silkworms are the treasures of our Tianji Peak. There were a few odd-job workers who took care of these snow silkworms.

Unfortunately, those odd-job workers somehow angered the snow silkworms and were bitten by them. "Before the sun sets, we must take these snow silkworms back to the silkworm room. That's why I called you here.

Don't just stand there. It's getting late. Let's Get to work! I'm warning you. Snow jade silkworms are extremely precious. If you hurt them, you'll be punished!" Mu Wu said arrogantly.

From Mu Wu's words, Yun chujiu immediately understood why mu Wu asked them to come here.

Previously, when the snow jade silkworms attacked the odd-job workers for unknown reasons, none of the odd-job workers in Tianji Peak would come here to look for trouble. That was why Mu Wu would go to other places and catch odd-job workers to work. How despicable and Shameless!
