

The Yun Family's Ninth Child is an Imp! Chapter 2617

Yun Chujiu and the other three thought that cutting two thousand catties of firewood was a small matter. After all, all four of them had spiritual power. However, when they arrived at the back of the mountain, the four of them finally understood why those people were gloating over their misfortune.

The back of the mountain of the primordial chaos sect was very big, but the only thing that could be used to make firewood was a kind of iron-skinned pine. However, this kind of iron-skinned pine had a very loose distribution. There were only a few within a mile of the ground. It would probably take a lot of effort to gather two thousand catties of firewood.

Jin Zhi and the other two looked at Yun Chujiu. Should they cut or not?

Yun chujiu snorted coldly. "Even if we cut two thousand kilograms, they will think of something to torment us. If that's the case, why are we looking for trouble? We can deal with it with some tree branches! Let's go find wild fruits to eat!"

Xue Wuji and the other two did not follow the rules, so they agreed with Yun Chujiu without any objections.

The four of them casually picked up some tree branches and put them into their storage rings. Then, they searched for wild fruits at the back of the mountain.

They did not find any wild fruits. Instead, they caught a short-tailed wind blade deer. The four of them started to roast meat by the stream.

Yun Chujiu had learned from the lessons of the Linghua sect. This time, she specifically looked through the sect rules of the primordial chaos sect. There was no prohibition on roasting meat at the back of the mountain, so she did not feel any psychological burden.

The four of them ate and drank their fill. They meditated and cultivated until night time. They did not return to the big kitchen and directly returned to the dormitory.

The next day, fatty song and Fatty Luo looked at the firewood on the ground that could be counted on one's palm. They immediately began to make trouble.

“Good! The four of you actually only chopped so little firewood. I think you did it on purpose! Someone, send the four of them to the general affairs office. Someone will naturally take care of them.”

Hearing Fatty Song's words, some lackeys immediately came over, wanting to forcefully bring the four of them to the general affairs office, yun chujiu smiled and said, “Chefs, it's true that we didn't complete the mission, so we have nothing to say. Why don't we use the Spirit Stones as compensation? What do you think?”

Fatty Luo and fatty song's eyes revealed a greedy look. Yun Chujiu's words were simply too much to their liking! Why did they go through so much trouble? ! Wasn't it just for the Spirit Stones? !

Fatty Luo said with a fake smile, "Forget it. You little girl's spiritual power is low, so it's understandable that you couldn't complete the mission. How many spirit stones are you prepared to compensate us?"

Yun Chujiu revealed a troubled look, "Really? Will the two chefs be troubled? After all, we haven't finished cutting the wood, and it will affect today's lunch and dinner."

Fatty song said, "It's not difficult, it's not difficult.". Cutting the firewood was not part of your job, so it didn't matter if it wasn't finished. Besides, there's plenty of firewood in the kitchen. Let alone today, it wouldn't be a problem to use it for ten days."

Fatty Luo echoed from the side, "He's right. As long as you have enough spirit stones, it doesn't matter whether we cut the firewood or not."

Yun chujiu nodded, "According to the two chefs, since cutting wood is not our job, then there's no way to punish us, right? Why should I give you spirit stones then?"

Fatty song and Fatty Luo were stunned. They suddenly realized that they had been fooled!

"Stupid girl! Don't be so shameless. You can either buy peace with money or go to the miscellaneous office to be punished. Pick one!"

“Go to the miscellaneous office to be punished? I think the two of you will be punished, right? You made a name for yourself and bullied your fellow disciples. TSK Tsk, according to the sect rules, you should be punished with a cane!” Yun Chujiu said as she took out the recording stone and waved it in front of the two of them.
