

The Yun Family's Ninth Child is an Imp! Chapter 2647

While elder Jiang and the other two were still in a daze, Yun chujui counted with her fingers and said, "Elders, we have counted them all. There is a total of 1,560 new silkworms.

If we remove the base figure of 60, there is an additional 1,500 silkworms. Each of them has five contribution points. You three can just give each of us 7,500 contribution points."

What the hell was that?

7,500 contribution points?

Elder Jiang and the other two elders' heads were buzzing. Although the number of serpents that they had produced was indeed not small, it was impossible to reward each of them with 7,500 contribution points at once!

The other disciples who had fought with their lives did not have so many contribution points. If this news were to spread, wouldn't it cause a stir?

"That... That Yun Chujui... Yes, we did say that one serpents will reward you with five contribution points, but this 7,500 contribution points is really too much!" Elder Ding said with some embarrassment.

Yun chujui blinked her eyes. "Too much? That's easy. How much do you think it is?"

The three elders looked at each other. They did not expect Yun chujui to be so easy to talk to. The three of them discussed for a while. "We can't let you work for nothing. How about this? Each of you will be rewarded with an additional 1,000 contribution points. What do you think?"

Yun chujui nodded. "No Problem! 1,000 contribution points means 200 new silkworms. We will just kill all the extra silkworms!"

As Yun Chujiu said this, she was about to destroy the silkworms. The three elders were anxious and angry. "Stop! Yun Chujiu, don't be too impudent!"

Yun chujiu sneered. "Three elders, as the saying goes, a promise must be kept. Did I force you to agree to five contribution points for a new silkworm? Moreover, this is not a one-time deal. In three months, some snow jade silkworms will have their mating period again."

Elder Jiang and the other two had never met such a bold and shameless servant before. They were furious, but they had to admit that what Yun Chujiu said made sense.

It was true that they had broken their promise first, and the snow jade silkworms would have their mating period in three months. If they could breed so many snow jade silkworms, their Tianji Peak's income would be huge.

After weighing the options, the three of them gritted their teeth and said, "Alright, then I'll reward each of you with 7,500 contribution points."

Yun chujiu immediately smiled and said, "That's right!" One must be honest when doing business. These snow jade silkworms are very docile after mating period. Please find someone else to take charge of the Mulberry Garden. We'll go back to the kitchen now!"

"You guys can stay in the Mulberry Garden. I'll go to the general affairs office and tell them." Elder Jiang was still counting on Yun Chujiu and the others to take care of the next mating of the snow jade silkworms.

"No need to trouble you. We'll work part-time when the snow jade silkworms mate! Please give us your contribution points as soon as possible." Yun chujiu had been tired of living in the Mulberry Garden for a long time! Now that she had contribution points, what was she waiting for? !

Elder Jiang and the other two could only transfer their contribution points to Yun Chujiu and the other two. They would report to the peak master of Tianji Peak and make up for it later.

Yun chujiu and the other two left the mulberry garden happily after the new servants started working.

The three of them didn't go back to the kitchen. Who would be willing to light a fire for fun? A certain Jiu had plenty of spirit stones anyway, so she would continue to hire the four people.

When the three of them arrived at the library, a certain Jiu and the other two placed their identity jade plates in front of the guard disciple.

The disciple curled his lips in disdain. He remembered very clearly that it was these three handymen who had come to read the book without a single contribution point. This time, it was estimated that they would only have a few dozen contribution points at most.
