The Yun Family's Ninth Child is an Imp! Chapter 2652

"Tsk Tsk, are you angry from embarrassment? You actually used public office to take revenge in front of so many people. It shows that you must have done such things in the past." Yun chujiu did not have a trace of fear on her face, she was still as calm as ever.

The law enforcement manager was so angry that he stomped his feet. "What are you waiting for?! Quickly take them away!"

Seeing this, the law enforcement disciples were about to escort Yun chujiu and the other two to the cave of reflection when they saw yun chujiu coldly say, "If any of you dare to touch me, I will kill him! If you don't believe me, Try!"

The law enforcement disciples were shocked by the murderous aura on Yun Chujiu's body. Then, they heard Yun chujiu continue, "That manager, did you forget something very important?"?

"Even if what you said makes sense, we went AWOL, but we received our mission from the General Affairs Department. The General Affairs Department didn't Stop Us, which means that they acquiesced.

"Also, elder Jiang, elder Ding, and elder Wan of Tianji Peak have been communicating with US amicably. They didn't raise any objections, and they even rewarded us with 7,500 contribution points. According to what you said..." "Should we punish them as well?"?

"In the end, we have made a huge contribution to Tianji Peak. I don't believe that Tianji Peak will ignore us. Wouldn't that be ungrateful?"? "Senior Brothers and Sisters of Tianji Peak, don't you agree?"

Of course, there were people from Tianji Peak in the crowd. When they heard Yun Chujiu's question, they didn't know whether to admit it or not. All of them shrunk their necks and didn't say anything.

The manager of the law enforcement department was sweating from Yun Chujiu's words. He didn't think too much about it, and the General Affairs Department was easy to deal with. However, if the three elders of Tianji Peak really pursued the matter, he wouldn't be able to bear it.

At this moment.., yun chujiu continued, "As everyone knows, we got so many contribution points because we bred snow jade silkworms. "If we die in the meditation cave and the breeding of snow jade silkworms is affected, Will Tianji Peak come after you?

"Of course, you might think that someone will protect you, but Snow Jade Silkworms are the treasure of Tianji Peak! "Who has more face than the treasure of Tianji Peak?

"By the way, I think that what you did this time is a slap to the three elders' faces, and Tianji Peak has lost face because of it. TSK, TSK, you'll be in trouble in the future!"

The young steward's back was soaked in cold sweat. He didn't think so much when he promised that person. They were just three handymen. He thought that it was a small matter.

"Of course, what I said just now was just a guess. I believe that the punishment this steward gave us just now was just to scare us, right?" Yun chujiu looked at the young steward with a faint smile.

The little steward wiped the cold sweat that kept flowing out as he weighed the pros and cons, he gritted his teeth. "That's right, I was indeed scaring you just now. Considering that your intentions were good and you didn't cause any losses, I'll confiscate your sect's resources for half a year!"

"We are fully convinced by this punishment. In that case, we'll go back to work. In the future, I'll often come to the law enforcement office for a stroll. Let's have a good exchange about the explanation of the sect's rules."

After Yun Chujiu finished speaking, she swaggered out of the small square with Jin Zhi and Ye Bingyu.

Old Man Yao, who was watching from afar, stroked his beard and turned around to leave.
