

The Yun Family's Ninth Child is an Imp! Chapter 2659

An hour later, the law enforcement disciples escorted Yun chujiu to the reflection cave.

Yun chujiu originally thought that the reflection cave was just a bunch of broken caves. She did not expect that it was not the case at all.

There was a teleportation formation on the ground, and there were people guarding it.

The law enforcement disciples handed the punishment decision with the Great Seal of the law enforcement department to a small leader who was guarding the formation. That person looked at it and then sized up Yun Chujiu.

“Stand inside the teleportation formation and I’ll send you to the tenth reflection cave now. TSK Tsk, you’re really hitting a rock with an egg. I’m afraid that in less than half a month, your little life will be over,” the small leader said with slight disdain.

Yun chujiu pursed her lips and did not speak. She had a stubborn look on her face.

The small leader curled his lips and began to form seals with his hands. A white light flashed and Yun Chujiu’s figure disappeared from the spot.

When Yun Chujiu regained her sight, she found herself in a simple cave.

Although the cave was simple, it was quite spacious. It was probably convenient for the punished disciples to avoid wind blades and lightning.

The temperature in the cave was very low. It was as cold as ice.

Yun chujju took out firewood and started a bonfire. The temperature in the cave was slightly higher.

Yun chujju looked around and knocked with a rolling pin, but she didn't find anything strange. She didn't know where the wind blades and lightning would come from.

The reason why this guy tried to enter the meditation cave was partly to absorb the lightning and cultivate, and partly to study how the Lightning came from the meditation cave. If she could find a way, she would be very happy.

While Yun Chujju was dreaming, she heard a slight noise. She was shocked. The wind blades were about to blow.

Suddenly, wind blades shot out from the top of her head and the ground.

F * ck!

If she was not careful, she would be cut into a thousand pieces!

Fortunately, these wind blades were straight up and down. As long as she was agile, she could still avoid them.

Yun chujju kept dodging the wind blades that shot out. Soon, she was drenched in sweat.

Damn it, this number ten thought cave was not given to her for free. If these damn wind blades did not stop, she would be exhausted to death.

After an hour, the wind blades finally stopped and the cave returned to peace.

Yun chujju wiped the sweat on her head. She did not know how often these wind blades would blow. If they were very frequent, wouldn't she not feel at ease even when she slept?

Also, why were there only wind blades and no lightning?

If there were no lightning, she would be at a huge disadvantage!

Just as this fellow was complaining, a bolt of lightning shot out from the ceiling and struck towards Yun Chujju.

A certain Jiu almost jumped up in joy. After being struck, she closed her eyes comfortably and said, "Again, again!"

In the end, after waiting for a long time, no lightning struck again.

This fellow was instantly discouraged. What was going on? Just this one bolt of lightning? This was not enough to fill the gaps between her teeth!

This fellow sat on the ground dejectedly. If she had known this would happen, she would have blown up the law enforcement office. Perhaps she would have been thrown into the No. 30 Reflection Cave.

The Lightning in the No. 30 Reflection Cave was definitely more frequent and more powerful than the lightning here. However, she could not withstand the wind blades inside. She was really conflicted.

Just as she was feeling vexed, another bolt of lightning came down from above her head. She immediately went up to meet it, muttering, "Come, don't be so stingy. Chop a few more times, preferably a hundred and eighty times!"
