

The Yun Family's Ninth Child is an Imp! Chapter 2660

The lightning lasted for about 15 minutes. A certain Jiu wasn't too satisfied with it, but it was better to have it than not. After all, it was better to have it! Anyway, she was going to be locked up here for four months!

When the four months were up, she would beat up anyone she disliked, and then she would be able to enter again. How was she so smart? !

After about two hours, a new round of wind blade attacks began.

Because of her previous experience, Yun Chujiu was able to dodge the wind blade attacks with ease. Then, she was happily struck by lightning.

What was happiness? Happiness was being struck by lightning!

This fellow's good mood disappeared when she was sleepy at night!

Lightning was easy to deal with. If she was willing to be struck, then she would be struck! But the wind blade couldn't do it. If she wasn't careful, she might be cut into a thousand pieces in her sleep. What should she do?

Yun chujiu finally understood why everyone felt that the reflection cave was terrifying. They might be able to deal with one or two waves of attacks, but these attacks that were separated by two hours made it impossible for them to relax and have a good rest, it would indeed be a torture if this continued.

Yun Chujiu's thoughts were right, but she didn't know that lightning attacks were the most difficult to endure for the others. After all, the wind blade attack was straightforward, so it was easier to dodge it. However, lightning could find its target. Other than using the spiritual energy shield to block it, it could only endure it.

This guy blinked his eyes. The idea was human. In order to have a good sleep, he had to think of a good way to dodge the wind blade.

This guy glanced around and his eyes suddenly lit up.

The wind blades shot out from the ceiling and the ground were straight up and down. If she created a cave on the side wall, wouldn't that solve the problem?

When this guy thought of this, he asked Xiao Hei to start digging.

Unexpectedly, Xiao Hei said with a sad face, "Master, I don't know what material this stone wall is made of. I can't Dig It!"

Yun Chujiu was stunned. She didn't expect that there was something that Xiao Hei couldn't dig. She put Xiao Hei away and took out a few sudden crack talismans and threw them on the stone wall.

Boom! Boom!

After a few loud bangs, the side wall was still safe and sound.

This guy rubbed his chin and pondered for a moment. It seemed that he could only use the large kitchen knife.

Yun chujiu used the large kitchen knife and hacked hard, easily cutting off a piece of rock.

Yun chujiu was very proud. She was already ninety-nine percent sure that the large kitchen knife in her hand was the Heaven Punisher Divine Axe. Who would have thought that the large kitchen knife that

she casually used was actually a divine weapon. Haha!

This guy took the big kitchen knife and cut a side hole that was enough for a person to move. This guy thought that the stones cut off might be treasures, so he put all the stones into his storage ring.

Yun chujiu laid a snow cashmere blanket in the side hole and tried it happily. It was perfect.

She didn't expect that extreme joy would lead to sorrow. The wind blade was dodged. When the Lightning came, it hit the blanket. Thick smoke billowed, and the guy almost choked to death.

"Cough cough! Cough Cough! A wise man must make a mistake after careful consideration! It's better to lie on a Rock!"

The fellow could only take out a large kitchen knife to flatten the inside a little before lying down. Although it was a little painful, it was still better than choking to death.

Thus, from this day on, the fellow began to live a blissful life with lightning strikes. Xiao Heiniaio and Xiao Mogu also rubbed against some lightning.

However, Xiao Heiniaio was not satisfied. There was too little lightning. If he only absorbed a little, it would take a long time before he could break through! It would be best if he could go to a higher number of thought holes.

Xiao Heiniaio rubbed his chin and pondered. He estimated that the next door to the 10th thought hole should be the 11th or 9th thought hole. Generally speaking, they were arranged from left to right. The right side of the 10th hole should be the 11th hole.

Therefore, this guy started to dig the hole..
