

The Yun Family's Ninth Child is an Imp! Chapter 2662

Old Man Yao smeared some soil on the stone. Then, he took out a handful of seeds from his storage ring and scattered them on the ground. The seeds broke out of the ground in an instant and grew rapidly, soon, they turned into large vines that covered the entrance of the cave.

Old Man Yao cleaned up the footprints left by Yun Chujiu one by one. He sighed and carried the small shovel to continue digging wild vegetables.

A certain jiu mumbled as she blocked the passage with a stone, "Damn, I was scared to death! Fortunately, I met Old Man Yao. It would be terrible if I met someone else! It seems that this hole was not dug randomly."

"Sigh! I have to fill up the hole even if I have to Cry!"

"It seems that this reflection hole is not adjacent to each other. Perhaps each hole is thousands of miles away! It is obviously not realistic to dig holes. It seems that I can only wait for four months before I can think of a way to go to the high-level reflection hole."

..

Half a month later, the disciples of the law enforcement department arrived at the teleportation array of the meditation cave.

"Due to Tianji Peak's application, Yun Chujiu's meditation time has been reduced. Please let her out!" The disciple of the law enforcement department said as he handed the document to the small leader who managed the teleportation array.

"Yo, I didn't expect Yun chujiu to be protected by a noble. Although it's only been half a month, I think she's only left with half her life!"

The leader said as he began to form a seal. Then, he was stunned..

According to common sense, Yun chujiu should have been teleported out after he formed a seal. Why didn't she come out?

The leader and everyone looked at each other. The disciple of the law enforcement department said in surprise, "Could it be... could it be that Yun Chujiu has already died inside?"

"That might be true. The corpse might have been turned into ashes by the Lightning, which is why it wasn't teleported out," someone echoed.

"That's not right either. At least the sect token and storage ring wouldn't have been turned into ashes. Why wasn't it sent out?" The leader retorted.

The law enforcement division disciple didn't expect such a situation. He hesitated for a moment and asked, "Then what do we do now? How Do I report back?"

The leader clenched his teeth, he was clearly in a difficult position. "Junior brother, I won't hide it from you. Although I'm in charge of this teleportation array, I can only control this teleportation array. "I know nothing about the situation inside the cave. Also, without the document of your law enforcement office, you are not allowed to enter the cave. "So, I think you should go back and report to your manager."

The disciple of the law enforcement office had no choice but to bring his men back to the law enforcement office.

"What? Dead? How did she die in half a month? !" Manager Zhong stood up and asked in disbelief.

His head buzzed. He had planned to let Yun Chujiu die in the meditation cave, but it had only been half a month. How did she die?

A handyman had died, but Tianji Peak had sent someone to find elder Chu of the law enforcement department to plead with him. They said that the mating period of the Snow Jade Silkworm was coming, and they needed Yun Chujiu's help.

What the hell!

What did the mating of the snow jade silkworm have to do with this Damn Yun Chujiu? !

Manager Zhong had no choice but to meet elder Chu of the law enforcement office and tell her what had happened.

After hearing this, elder Chu frowned and said, "How about this? Go to the No. 10 meditation cave and see for yourself."

Although manager Zhong was unwilling, he had no choice but to take elder Chu's identity jade token and go to the teleportation array of the meditation cave.
