

The Yun Family's Ninth Child is an Imp! Chapter 2696

Master Xiahou sneered, "Bai Li Yin, aren't you used to putting on airs? Why aren't you putting on airs this time? Humph! Catching Up isn't a business. There will come a day when you beg me!"

After Master Xiahou finished speaking, he arrogantly took his men and left.

Master Baili was so angry that he smashed his teacup into pieces. However, he knew that being angry wouldn't solve the problem. After calming himself down, he invited four supreme elders and six peak masters to discuss countermeasures.

"For now, it is best to find out what is underneath the spirit energy ball. Only then can we find the right medicine," said a supreme elder.

"However, that spirit energy ball is extremely overbearing. How can we find out what is underneath it?" Master Baili asked with a frown.

"This..."

Everyone immediately fell silent. Yes, it was very difficult to get close to it. How could they find out what was underneath it?

Just as everyone was frowning, they felt that the room had suddenly turned dark. Everyone was shocked and hurriedly left the meeting hall. They saw that the sky was filled with dark clouds, and there was also an endless stream of dark clouds gathering towards the Hunyuan sect. Wu Yun and Master Baili were in the middle of the meeting hall, to be precise, they were gathering towards the place where the spirit energy ball was.

Master Baili inexplicably thought of Master Xiahou's words. Could it really be Heaven's punishment? But the primordial chaos sect had been peaceful recently. How could it be a heavenly punishment?

Although Master Baili's heart was in turmoil, he still quickly gave the order for all the disciples to quickly gather at the Primordial Chaos Square.

This was because the primordial Chaos Square had an ancient array formation. Even if heavenly lightning fell, it could temporarily keep everyone safe.

Therefore, everyone in the primordial chaos sect dropped what they were doing and ran to the primordial Chaos Square. Even the people guarding the teleportation array at the Siguo Cave also ran to the Primordial Chaos Square.

That little leader suddenly slapped his thigh. Oh No! There was still the goddess of wealth in the reflection cave!

However, when he looked at the thick Wu Yun in the sky and felt the increasingly heavy pressure, he still could not move his legs.

Sorry, goddess of wealth, you can count on yourself! However, the reflection cave was protected by the array, so it should not be affected.

Coincidentally, Jin Zhi and ye Bingyu were about to break through these few days, so they had been in closed-door cultivation. If they had not received the news of the identity jade token, the two of them would have been in closed-door cultivation for a few more days.

The two of them rushed to the mixed origin square while sending a voice transmission talisman to Yun Chujiu.

The two of them were not too worried. After all, little jiu liked to be struck by lightning. Perhaps she was so happy that she had to come out!

When the two of them rushed to the mixed origin square, Yun Chujiu's voice transmission talisman had also arrived. Jin Zhi used her spiritual sense to probe inside, yun Chujiu's excited voice came from inside. "What? Heavenly Lightning is coming? Quick, get someone to let me out. I want to be struck by lightning to my heart's content!"

Only then did Jin Zhi come to her senses. Perhaps the reflection cave was isolated from heavenly lightning, so she had to get little jiu out.

Jin Zhi immediately saw the small leader guarding the teleportation array. She hurriedly ran over and said, "Senior brother, Little Jiu is still inside the cave of reflection. Hurry up and let her out! Otherwise, something will happen!"

The small leader said guiltily, "Junior sister, this, this is not up to me to decide. To let her go, you need a document from the law enforcement office. Go and look for the law enforcement office first!"

Jin Zhi had no choice but to look for elder Chu from the law enforcement office.

Fortunately, everyone had almost arrived at the mixed origin square, so they didn't have to expend too much effort to find it.

After Jin Zhi explained the matter, elder Chu didn't decline and directly went to see Master Baili.

Master Baili was just about to speak when countless purple heavenly lightning struck toward the back of the Tianshu Peak..
