

## The Yun Family's Ninth Child is an Imp! Chapter 2700

Yun chujiu was so hungry that her heart was stuck to her back. Fortunately, she had a flash of inspiration and remembered that she still had guai Cao!

This fellow said with a never-before-seen good attitude, "Gou Weiba, only you can save me now. Hurry up and get me something that can quench my hunger and thirst."

Gou WEIBA wagged its leaves proudly. Usually, it always despised it for being able to eat, but now, didn't it still have to count on it? !

Yun Chujiu's forefinger was oozing with liquid, and Yun Chujiu quickly put it into her mouth.

It had to be said that Gou Weiba was still reliable. After this drop of liquid entered her stomach, Yun chujiu instantly felt refreshed.

Now, it was time to think about how to get out of this predicament!

Yun chujiu took out the small dagger from her boot and tried it, but it was useless!

The guy sighed. Damn it, if he knew this would happen, he would have put the big kitchen knife on his waist. This way, he could use it even if he did not have spiritual power.

The guy decided to make a knife case in the future and carry the big kitchen knife with him. He did not care whether it looked good or not, as long as it could save his life at the critical moment.

In the blink of an eye, another two days passed. Although the liquid from the guai Cao saved his life, anyone trapped in a stone room would feel so depressed that they would want to hit the wall.

Fortunately, Yun Chujiu had taken out a luminous pearl to light up the room. Otherwise, it would have been even more difficult to endure.

Yun chujiu tried to communicate with the great void mirror, but she did not succeed. As for the Black Pearl, she did not expect it at all. It was just a free meal.

Yun chujiu asked Guai Cao to help her communicate with the great void mirror. She wanted to see if she could enter the great void mirror and find a way out.

The result was very disappointing. According to Guai Cao's feedback, it had no way to communicate with the supreme void mirror. Obviously, other than the weird guai Cao, everything else required spiritual power.

Yun Chujiu thought that the reason why guai Cao was not affected was probably because guai Cao shared a body with her, so it was not limited by spiritual power.

How could she get out?

Yun Chujiu's head hurt from thinking, but she did not give up. She felt that there was always a way out. There must be a way out.

Guai Cao had to admit that although its host was a little weak, its willpower was so strong that it was not human. If it was someone with weak willpower, they would have died hundreds of times.

Yun chujiu paced back and forth in the stone room, counting the things she could use with her fingers.

Dagger, useless! Draw a cross!

Storage ring, useless, draw a cross!

Spirit Beast Pouch, useless, draw a cross!

Grand Illusionary Mirror, useless, draw a cross!

Black Bead, free food, draw a cross!

This fellow thought about it, but he could only find a breakthrough point from Guai Cao!

“Gou Weiba, get me some corrosive liquid, like weak water. I’ll see if I can corrode the stone wall.”

Guai Cao painfully took out a drop. Yun chujiu dripped it on the stone wall, but there was no reaction!

Yun chujiu could not help but feel a little dejected. This could not work, that could not work either. Was she really going to be trapped here for the rest of her life?

Yun chujiu forced herself to calm down and once again looked for a breakthrough point from Guai Cao’s body.

Got It!

“Gou Weiba, you go ahead and tease me to your heart’s content. Summon all the demonic beasts in the vicinity! When the time comes, the demonic beasts will definitely be able to pull this stone room out. Naturally, someone will think of a way to get me out.”

Upon hearing Yun Chujiu’s instructions, Guai Cao began to shake the leaves on his body with all his might. This fellow was extremely pleased with himself. Didn’t he still have to rely on it at the crucial moment? ! How could he bear to take care of this black-hearted little girl in the future? !

With a human and a grass acting as demons here, the Chaos Origin sect was once again in trouble!
