

The Yun Family's Ninth Child is an Imp! Chapter 2701

Master Baili looked at himself in the mirror. Sigh, he had forcefully added a lot of white hair these days. It was really worrying!

At this moment, he felt as if the ground was trembling. What was going on? was the Earth Dragon going to turn over a new leaf?

His identity jade token suddenly trembled. After Master Baili sent his divine sense in, he heard mountain master he shouting, "Master! The Demon Beasts have gone mad! The Demon Beasts have gone mad!"

Master Baili frowned. At his age, this mountain master he was speaking without any reason. What did he mean by the Demon Beasts going mad? Before he could ask further, the identity jade token and the voice transmission talisman started to explode!

"Master, this is bad! The Demon Beasts in our spirit beast garden are all ramming into the array formation like crazy. The Demon Beasts at the back of the mountains are all rushing toward the back of Dubhe Peak."

"Master, this is bad! The snow jade silkworms of Tianji peak are jumping out of the mulberry garden like crazy!"

"Master, all the demon beasts are rushing toward the back of the mountain, and even the red-feathered chickens in the kitchen are ramming the cages like crazy!"

"Master, there are many demon birds and demon insects approaching the back of Dubhe Peak. Also, there seems to be a large number of demon beasts on the way. Should we activate the sect-protecting array formation?"

..

Master Baili couldn't care less about the white hair and black hair anymore. He rushed out of the courtyard, and from afar, he could see the demonic birds and demonic insects that blotted out the sky rushing towards the back mountain of Tianshu Peak.

Moreover, the ground was trembling more and more violently. Clearly, there were many demonic beasts rushing over.

They had committed a sin!

What on Earth was going on?

Even if the demonic beasts were rebelling, they shouldn't just run towards their primordial chaos sect! Moreover, it seemed like they were heading towards the back mountain of Dubhe Peak. Could it be that these demon beasts had really gone mad?

The four grand elders hurriedly rushed over. The four old men wiped their sweat. It had been many years since they had been safe. Why had there been so many accidents recently?

The six peak masters also rushed over hurriedly. The most important thing now was whether or not to activate the sect protecting array.

If it was activated, even if the sect-protecting array was very powerful, with so many demonic beasts attacking, it would consume a lot of energy every day. Moreover, if the sect-protecting array was damaged, it would be disastrous if anything bad happened in the future!

However, if the sect-protecting array was not activated, the purpose of these demonic beasts would be unclear again. What if they attacked people?

In the end, everyone decided to check the back of Dubhe Peak and ordered all the disciples of the primordial chaos sect to gather at the Primordial Square. If the demonic beasts really went out of control, they could at least rely on the ancient array to hold on for a while.

Master Baili and the others didn't dare to get too close, so they only rode their swords and watched from above.

They saw that the demonic beasts and demonic insects that arrived first, regardless of their level, didn't attack each other. Instead, they were all doing their best, uh, digging the ground..

Master Baili and the others looked at each other in confusion. What were they doing?

A supreme elder muttered, "Could it be that this has something to do with the spirit energy cluster that appeared earlier? Perhaps there are some heavenly treasures below that are attracting them?"

Everyone felt that what he said made a lot of sense. It was either a heavenly treasure or the egg of an immortal beast or a strange beast. That was why these demonic beasts were so crazy.

As more and more demon beasts gathered, the demon beasts began to dig in batches. Especially when some demon beasts who were good at digging came, the speed of digging was much faster.

Soon, a huge pit appeared, but the demon beasts continued to dig and dig..
