

The Yun Family's Ninth Child is an Imp! Chapter 2715

He Sheng had the intention to take revenge, but when he saw that fatty Wang had nothing else to say, he had no choice but to endure it first and curse a few words at the servants who were setting the fire.

Yun chujiu took the fire stick and returned to her seat. She sat on the small stool and continued to daydream.

After a while, the fragrance of the food began to spread.

Yun chujiu stretched her neck and shouted, "He Sheng, get me some breakfast, I'm Hungry!"

He Sheng almost choked!

Are You Shameless? ! It's fine if you don't work, but you even ordered him to get her breakfast? Who does she think she is? ! !

He Sheng was about to say a few words against Yun chujiu when he saw the fire stick in Yun Chujiu's hand. He had no choice but to let a handyman prepare it for Yun Chujiu.

"That little guy, I don't want to eat the flower rolls. Pick up a few meat buns for me! Don't want that spiritual rice porridge, get me a bowl of that mixed-grain porridge..." a certain jiu sat on the small pony and was picky.

The people in the big kitchen were extremely popular. How was this a handyman? This was a f * cking ancestor! It had to be said that they knew the truth. This person was truly an ancestor.

Thus, on one side, the people in the big kitchen were extremely busy. On the other side, a certain jiu was sitting on a small stool and eating her breakfast leisurely.

Sigh!

This person, if he was in a bad mood, nothing would taste good. It was unknown if the pretty boy really left in a fit of anger. What a stingy person!

After eating a little, a certain Jiu decided to go out for a walk.

This fellow drew a circle with the fire stick around the small pony and then said, "If anyone steps into my circle, I'll come back and break their legs! Do You Hear Me?"

Everyone either lowered their heads in silence or pretended not to hear him, but no one dared to refute him.

Yun chujiu nodded in satisfaction. On this point, the murderous origin sect was much better than the mixed origin sect. Anyone who disliked them could be killed directly. There were not so many rules and restrictions.

Yun chujiu threw the fire stick on the ground and turned around to leave the kitchen.

This guy decided to familiarize himself with the terrain first. After all, he would have to come here often in the future. It was better to be prepared.

Therefore, this guy walked halfway up the Golden Peak. Since the Golden Peak was the main peak, he would start from the Golden Peak!

Yun chujiu strolled around for a day. In the evening, she returned to the kitchen and saw that her small horse was safe and sound. The corner of her mouth curled up. Sure enough, fists were the real reason.

This fellow picked up the dishes that she liked and put them into her storage ring. Then, she strolled back to the dormitory.

As soon as she pushed open the courtyard door, she saw a certain jiu staring at her with a dead fish's eyes sitting beside the stone table.

A certain jiu instantly smiled like a flower and pounced over. "Idol, my dear idol, I knew you wouldn't be really angry!"

Di beiming had the intention to push Yun chujiu away, but his body was more honest than his brain. When he reacted, he had already hugged a certain jiu who was pouncing over.

Yun chujiu rubbed against di beiming's chest. "My Idol, I was wrong! I shouldn't have used the chili to deceive you, but I'm really sad. I only used the chili to make it more effective."

Di beiming snorted and pushed Yun chujiu away. "Lying is lying. There aren't that many reasons!"

Yun chujiu blinked her eyes and threw herself into di Beiming's arms again. She hugged di beiming's neck, she smiled and said, "Then I admit that I'm wrong, okay? I Won't lie to you next time! I'm just worried about you! Don't be angry, okay?"

This guy felt that it was okay to act coquettishly with his loved ones. He didn't even care if he was shameless. As long as he was thick-skinned and arrogant, he would become a little girl!
