

## The Yun Family's Ninth Child is an Imp! Chapter 2733

Yun Chujiu said with a smile, "Thank you for your reminder, senior brother. It's getting late. Please hurry up and send me in!"

The disciple on duty:"..."

A white light flashed. When Yun Chujiu regained her sight, she had already arrived at a cave.

Just as Yun Chujiu was about to take a good look at the self-reflection cave, earth thorns began to emerge from the ground. Yun chujiu was so shocked that she quickly moved around to dodge them.

Just as the earth thorns disappeared, wind blades shot out from the four walls.

Yun chujiu thought to herself as she dodged. This self-reflection cave was much more ingenious than the design of the self-reflection cave. It seemed that there was no way to dig the side walls.

Fortunately, she did not go into the higher-level self-reflection cave. If she could not dig the cave, wouldn't she be looking for trouble? !

After the wind blades passed, another round of water arrows came.

After the water arrows passed, the vines on the ground began to grow again. The vines were full of sharp thorns, and they bared their fangs and brandished their claws to Entangle Yun Chujiu.

Finally, the vines were gone, and fireballs of various sizes were thrown at her again.

She had just passed through the fireballs, and before she could catch her breath, a new round of wind blade attacks began!

This fellow dodged while cursing in her heart. Oh My God, are you sure this is the No. 1 self-reflection cave? Why does it feel like this spiritual energy attack is not weak at all! Moreover, why doesn't she even have time to rest?

The few disciples guarding the teleportation array were chatting and laughing. One of the disciples accidentally saw the shadow stone beside the teleportation array and cried out in surprise!

"Oh my God! What, what is going on? We clearly sent Yun Chujiu to the No. 1 self-reflection cave just now. Why, why is she in the No. 11 self-reflection Cave Now?"

"This... This is nothing. Look at the time limit! We set it for five days, but... But why is it five hundred years now?"

Everyone was dumbfounded when they saw this!

The transportation array of the murderous origin sect was different from that of the Chaos Origin sect. It was one-way and would only be released when the time limit was set.

The little leader who was guarding the transportation array quickly formed a seal to shorten the time limit and then let Yun Chujiu out. He didn't expect that after a while, the number on the shadow stone still remained stubbornly at five hundred years, not moving at all.

The little leader had a sad face as he reported the matter to the elders above. Master Xiahou and the others who had yet to return to their own courtyard rushed to the teleportation formation in the self-reflection cave.

Leng Kui thought to himself, he said that it was a jinx. Wherever there was a problem, there would be a problem!

The teleportation formation in the self-reflection cave had not encountered any problems for tens of thousands of years. How could there be a problem today? Damn it! It would be better if she was locked up in there for 500 years! Otherwise, she would come out and harm their murderous Yuan sect!

However, that little girl was a weakling. Not to mention 500 years, even five days would probably be difficult, right? That was the 11th self-reflection cave!

While Leng Kui vented his anger, he also felt a little bad. Although that little girl was a little annoying, it was quite pitiful for her to die just like that.

The few peak masters tried to modify Yun Chujiu's time limit, but they still failed.

Master Xiahou felt his head buzzing. More things had happened on this day than what had happened in the entire killing Origin sect in a year, and they were all extremely difficult problems!

This self-reflection cave's teleportation array was designed by the founder of the mountain. Although it couldn't compare to the primordial chaos sect's ancient array, it couldn't be underestimated. These people only knew how to use it and couldn't break it at all, could it be that they really wanted to lock that little girl up for five hundred years?

Putting aside those spiritual energy attacks, even if she was thirsty, she would still die of thirst. If they had known earlier, they wouldn't have punished her to enter the self-reflection cave.

Master Xiahou recalled that Yun Chujiu had asked him for a voice transmission talisman. He hurriedly took out the voice transmission talisman and said, "That Yun Chujiu, listen to me. There's a situation now. What's the situation there?"
