

The Yun Family's Ninth Child is an Imp! Chapter 2739

A certain Jiu did not know that she had already been despised. This fellow was currently in a self-reflection cave, trying to figure out how to get out.

She did not have much hope for Master Xiahou and the others. After all, this was a formation from tens of thousands of years ago. Even if she could find a way to break it, it would take at least a year or so.

She still had a lot of things to do. She still had a date with the pretty boy. She didn't want to be trapped here.

Moreover, the spiritual attacks from time to time were really deadly. Even if she had a lot of defensive spirit tools, she couldn't waste them like this.

Blowing up the holes was the worst plan because according to Master Xiahou, there were a total of twenty self-reflection holes. If all of them were blown up, it would probably take several days.

Moreover, talisman seals were free, and talisman papers were not cheap, okay?

In the end, how could she get out?

Yun chujiu frowned and thought about it. The crux of the problem was, what exactly caused her to be locked up for five hundred years? Also, why was she transferred to this self-reflection cave after she blew up the eleventh self-reflection cave?

Everything in the world had a cause and effect. who was the one who caused the trouble?

Yun chujiu felt that there should not be any weapon spirits in the self-reflection cave because none of the weapon spirits would allow her to blow up the self-reflection cave without taking action. Then, what exactly was going on?

Yun Chujiu recalled the incident in the ancient sword tomb. Back then, the ancient sword tomb suddenly collapsed. Although no reason was found after that, it was highly likely that the Divine Devil Hall had done something to it, could it be that the Divine Devil Hall did something to it again?

This made sense. That elder Li from the Chaos Origin sect was a member of the Divine Devil Hall. Perhaps, there were people from the Divine Devil Hall in the murder Origin sect as well.

When he learned that she would be locked in the self-reflection cave, he tampered with the formation of the self-reflection cave. After all, the people from the Divine Devil Hall seemed to be very proficient in the ancient formation.

In that case, if he wanted to get out, the breakthrough point should not be placed on the teleportation array, but on the array formation in the cave of introspection.

Yun Chujiu told Master Xiahou about her guess, and Master Xiahou was shocked. He had no idea who was the spy in the sect now.

Moreover, most importantly, for so many years, they only knew the location of the teleportation array, and did not know where the array disk of the cave of introspection was.

Yun chujiu secretly thought that it must have been because Hongyuan old group was in a hurry to find Patriarch Yuan Tian to compete with him back then, so there were many things that they did not explain clearly.

For example, the location of the formation disk of the introspection cave, or the plaque on Jin Feng, perhaps there were still many unsolved cases in the killing origin sect!

Yun chujiu sighed. Since she could not find the location of the formation disk, it seemed that there was no other way except to blow up the cave! Although she would definitely waste a lot of talismans, her life was still more important, wasn't it? !

Yun Chujiu decided to give Master Xiahou some more time. In any case, she didn't need these few hours.

Outside the self-reflection cave, elder Jing was studying the teleportation formation with a few elders of the Shi Yuan sect who were proficient in formations, elder Jing frowned. "There doesn't seem to be anything wrong with this teleportation formation. Can someone demonstrate the process of forming the seal for me to take a look?"

Of course, this wasn't a big problem, so an elder called over the people guarding the teleportation formation and asked them to demonstrate.

Those people quickly came over to demonstrate. They also hoped that the teleportation formation could be repaired. After all, guarding the teleportation formation was a good job, and it would be a pity to lose it.
