

## The Yun Family's Ninth Child is an Imp! Chapter 2740

The few disciples guarding the teleportation formation saw Yun Chujiu's reflection on the shadow stone, so they started to form seals.

Of course, they didn't have any hope of getting Yun Chujiu out. They only wanted elder Jing to see how they formed the seals.

However, after they finished forming the seals, a little girl appeared in the middle of the teleportation formation with a dumbfounded expression.

Yun Chujiu looked at the crowd with a blank expression. "Did you guys fix the teleportation formation?"

Master Xiahou: "..."

Master Baili: "..."

Everyone: "..."

What the hell! How did this teleportation formation suddenly come into use?

Yun Chujiu saw elder Jing at a glance, she was so moved that tears welled up in her eyes. "Elder Jing, I knew that a good person like you would forget about the past and save me. Did you fix the teleportation formation? I knew that your attainments in formations were unprecedented..."

Elder Jing's face was as black as the bottom of a pot. He felt that this was the worst time he had ever been defamed! He clearly didn't do anything right? That wasn't right. This was also indirectly his credit. After all, if he hadn't asked those disciples to demonstrate the teleportation formation, Yun Chujiu wouldn't have been able to come out.

Elder Jing snorted coldly. "You don't have to thank me. This formation suddenly became normal. I don't know what happened either."

Yun Chujiu:"..."

Suddenly became normal? What kind of trick was this? Could it be that the people of the Divine Devil Hall had a conscience? This was simply impossible! It seemed that it was not the Divine Devil Hall's fault. What exactly was going on?

Everyone present was confused. However, no matter what, Yun Chujiu was safely rescued and her self-reflection cave was also saved. This was a good thing for everyone.

Master Xiahou finally let out a sigh of relief. Although he could not find the problem with the self-reflection cave for the time being, at least he did not let the little girl blow up all the self-reflection caves. He was thankful to the heavens!

Since there was nothing else, master Baili proposed to take his leave.

Master Xiahou and he hated each other, so he did not urge him to stay any longer. He looked at Yun Chujiu who was standing beside him, then, he said, "Yun Chujiu, it just so happens that master baili is returning to the primordial chaos sect. Do you want to go back and take a look as well? Your fellow disciples must miss you very much."

Before Yun Chujiu could say anything., master Baili said, "Little Girl, Jin Zhi and the others are doing well. You can rest assured and cultivate in the primordial murder sect! If the three months are up, if you still want to stay in the primordial murder sect, I believe Master Xiahou won't object."

"Bai Li Yin, what are you talking about? ! We agreed to rotate once every three months. If it's three months, how can she still stay in the primordial murder sect?"

“Xiahou Lin, I was just saying that. Look at your anxious and pale face. You’re really lacking in manners!”

..

Yun chujiu looked left and right. Why did it sound like she didn’t want her? Was she being looked down on? Damn it! This was outrageous! She was her ancestor. How dare she look down on her? Let’s wait and see!

Master Baili said a few words to master Xiahou, then left with elder Jing in a hurry.

Yun chujiu pursed her lips. was she afraid that she would go back with him? She didn’t do anything that angered the heavens or angered the people? Besides, she was still very low-key in the primordial chaos sect. Why did she dislike her so much?

Just as Yun chujiu was cursing in her heart, she heard master Xiahou say, “Yun Chujiu, try to move around the big kitchen in the future. This will be good for you and everyone else.”.
