

The Yun Family's Ninth Child is an Imp! Chapter 2768

Yun Chujiu went into the cave and covered the entrance with a stone slab. There was also the silly rabbit on top to help cover the entrance. As long as someone did not look carefully, it was impossible to find any clues.

After Yun Chujiu went down to the underground river, she planned to swim to the exit of the underground river to block it. This immortal spring was so precious, she could not waste it for nothing.

Just as she was swimming towards the exit, she noticed that the flow of water had suddenly increased.

She was shocked. The flow of water had suddenly increased. There was only one reason, and that was that the exit had become bigger.

The exit wouldn't have become bigger for no reason. It must have been man-made. Could it be that someone had sneaked in from the exit?

Yun chujiu looked around and found a dent in one of the stone walls. She quickly climbed to the shore, took off the spirit-concealing ring on her hand, and carefully held her breath.

The Dark River was very dark, so Yun Chujiu thought that the other party would not notice her.

An hour later, Yun chujiu vaguely saw a small boat rowing over. Someone was whispering and chatting:

“Haha! The heavens are really helping our divine Devil Hall! I didn't expect there to be such a dark river under the killing Origin sect. After we have explored the exit, we will come without anyone knowing. We will definitely destroy the killing origin sect in one fell swoop.”

“That’s right. After we have destroyed the killing origin sect, there is only the Hunyuan sect left. When that time comes, it will be much easier to deal with. If we are to talk about this matter, it is all thanks to Lord Purple Face.”

“That’s right. Lord purple face only discovered that tiny stream occasionally and he was able to determine that the stream was not ordinary. That was why he asked us to investigate it carefully. I didn’t expect that there would be such an underground river leading to the killing origin sect here.”

..

Yun Chujiu’s heart was like a raging river. She did not expect that she was right. This underground river was actually targeted by the Divine Devil Hall.

It was a close call. If the Divine Devil Hall really sent a large group of people to attack from here, the Shi Yuan sect would most likely die from a pincer attack from both inside and outside.

However, she might really be the Divine Devil Hall’s nemesis. Every time they did something bad, she would run into them by chance. This was the so-called ill-fated fate, Ga Ga!

This fellow rolled her eyes and immediately came up with a good idea.

Although she had lost such a good opportunity to make a fortune in the Dark River, it was very worth it to inflict a heavy blow on the Divine Devil Hall. Moreover, she could take the opportunity to make old man Xia Hou bleed a little.

This fellow was glad in her heart. Fortunately, the cave entrance that she came down from earlier was slanted. Moreover, she had always been careful and had deliberately blocked both ends of the cave entrance. She was not afraid that the people of the Divine Devil Hall would find out about it.

Therefore, Yun Chujiu waited patiently for almost four hours before the small boat appeared again.

However, they did not speak this time, so Yun Chujiu did not care too much. They would definitely go back and report it before confirming the exact time of the sneak attack.

After another two hours, Yun chujiu found that the water speed had increased again. She knew that the people should have reached the exit of the underground river.

After a while, Yun Chujiu finally swam to the exit of the underground river.

She felt that the Divine Demon Hall must have already sent people to guard the exit, so she could not go out and alert them.

This guy rolled his eyes and asked Mao suiqiu to get a few crystal fish from the Great Void Mystic Realm. These fish were not only very small in size, but they were transparent all over. If one was not careful, they would not be discovered at all.

After Yun Chujiu established a temporary contract with them, she placed them in the water and told them to report anything unusual to her at any time.
