

The Yun Family's Ninth Child is an Imp! Chapter 2773

Jin Mian could not figure it out. Their actions were so secretive and well-planned. There was a group of people attacking outside the mountain gate, and there were people guarding the entrance of the underground river. How could they all be killed?

It was not until the secret informant of the origin killing sect sent the news that they knew they had been fooled by Yun Chujiu again!

Catching the thief who had stolen the Green Jade Lotus Root was just a cover-up!

She had indeed interrogated all the people she had caught, but she did not find the thief. Instead, she found a few informants of the Divine Devil Hall. Moreover, those people who had been caught were not locked up in the law enforcement office. Instead, they had been brought to the outside of the origin-killing sect without anyone knowing. They were used to deal with the people of the Divine Devil Hall who were lying in ambush outside.

The people outside the stone wall were personally captured by Yun Chujiu.

According to the informant, Master Xiahou of the murder essence sect had long known about this hidden river. He had always sent people to guard it in secret. This time, he deliberately let the people from the Divine Devil Hall crawl into his pockets to beat the dog behind closed doors..

After the golden-masked man reported everything to the purple-masked woman, the purple-masked woman was so angry that she gnashed her teeth and said coldly, "You guys go into hiding for a period of time first. When my divine skill is fully mastered, we will take revenge."

At this moment, a certain jiu instantly became the hero of the entire sect from being the public enemy of the entire sect.

However, under normal circumstances, a hero would naturally be very popular. However, a hero like her did not have this kind of treatment. Everyone still did not like her.

The reason was very simple. This fellow was too cocky!

She wanted nothing more than to write the words hero on her forehead and show her merit everywhere. She wanted nothing more than for people to praise her every day.

Most importantly, everyone was not stupid. They did not think that Master Xiahou knew about the hidden river. If he knew about it, why would he waste so much immortal spring water?

When they thought about the case of the Meritorious Minister a certain Jiu and the green jade lotus root from before, the answer was obvious!

Yun chujiu must have discovered the hidden river when she stole the green jade lotus root. Although she had made up for it, it could not hide the fact that this fellow was a scourge.

Seeing this, Yun chujiu did not have any reputation to speak of anyway. She might as well go all out and spend all her time in the killing origin sect.

In the end, the four peak masters had no choice but to announce to the public that they were in closed-door cultivation to prevent this fellow from scouring the land again.

The people of the killing origin sect only had one wish now, and that was to have the three-month period come soon, so that this scourge could quickly scam back to the mixed origin sect!

Finally, the three-month period had arrived!

On this day, the entire sky-killing sect was filled with a festive atmosphere. There were lanterns and decorations, and everyone's face was filled with a joyful smile. The first thing they said when they met was, "That's great! That Scourge has finally left!"

Master Xiahou felt that these three months were longer than thirty years. Before dawn, he had sent Leng Kui to pack Yun Chujiu into the flying spirit tool and told him to send her to the chaos origin sect as soon as possible. It would be best if she never came again.

As soon as the flying spirit tool rose into the sky, Yun Chujiu heard a tsunami-like cheer coming from the killing origin sect. This guy shamelessly said to Leng Kui,

"Senior brother Leng, sigh, it's a burden to be so popular. Listen, they are all calling me to stay! How about I stay in the killing Origin sect for another month?"

Leng Kui ignored her and jumped into the cockpit. "Full speed ahead! The faster the better!"

Yun Chujiu:" ..."

Damn it, I saved a bunch of ungrateful people! If I knew this would happen, I would have used the underground river to feed the shrimps!

However, fortunately, she had hidden more than half of the underground river water in advance. Quack!
