

The Yun Family's Ninth Child is an Imp! Chapter 2777

Yun chujiu did not know that because of her words, the inner disciples of the seven peaks were all jittery. They were afraid that this guy would go to their teaching class and cause trouble.

The wind soon reached Master Baili's ears. Master Baili felt that there were a few more white hairs. He knew that this Yun chujiu would cause trouble as soon as she returned.

Thus, Master Baili personally issued a command from the sect leader. He talked about a lot of things. The main idea was that Yun chujiu was not allowed to leave the foot of Tianshu Peak. If she wanted to go for a walk, she could go to the back of Tianshu Peak.

Yun chujiu was holding her breath. Didn't she just want to go and listen to a lesson? Why was she grounded?

F * ck, if she was grounded, she could go to the back of the mountain to refine pills!

At that time, she would not be blamed for destroying the back of the mountain. Who asked Old Man Bai Li not to let her run around? !

However, this guy also knew that she could not let others know that she had the heaven and Earth Heaven and Earth Furnace. Anyway, when the time came, she could just say that the heavenly lightning was here to strike her.

Therefore, in the dead of night the next day, this guy sneaked to the back of the Tianshu Peak.

Yun chujiu found a hidden place, opened the isolation array, and began to refine pills.

This guy mumbled while refining pills, "Heavenly Thunder, Oh Heavenly Thunder, I'm refining pills again, hurry up and strike me! Come, come, come to Little Jiu!"

This guy refined for quite a while, and seeing that the sky was almost bright, there was no movement, not even the spiritual power ball that Jin Zhi told her about last time, let alone Heavenly Thunder!

This fellow rubbed his chin and pondered. It was probably because he was refining pills in the reflection cave last time that he didn't have enough spiritual power to trigger the spiritual power ball. This time, when he was refining pills outside, there was no way to trigger the spiritual power ball.

As for Heavenly Lightning, it was likely that it had learned its lesson and knew that it wouldn't be able to kill her, so it didn't come to assist her!

This fellow felt so stifled!

Why was it so difficult to get struck by lightning? !

Did she have to think of a way to enter the meditation cave to absorb the Lightning? Perhaps she could try refining pills inside, in case it attracted the heavenly lightning!

Thus, this fellow packed up her things, then withdrew from the isolation array and returned to her dormitory in a sullen mood.

She had left, but the smell of refining pills didn't spread out because of the isolation array just now. As she left, the rich medicinal fragrance immediately attracted many low-level demon beasts in the back mountain.

Those demon beasts rushed over one after another. They greedily breathed in the remaining medicinal fragrance and followed the scent to chase outside Yun Chujiu's courtyard.

Yun Chujiu had just returned to the courtyard. Just as she was about to wash up, she felt the earth shaking and the mountains shaking. This fellow was shocked. Did the Earth Dragon turn over?

The moment this fellow left the courtyard, he saw dozens of demon beasts wanting to pounce on her with incomparable enthusiasm. Moreover, there were demon beasts running towards her from afar.

This fellow had a dumbfounded look on his face. Could it be that it was Gou Weiba's demon again?

Guai Cao, who was the scapegoat, felt very stifled. This clearly had nothing to do with it, alright? It was all your own fault!

Fortunately, Yun chujiu quickly realized what was going on. She quickly used a few cleaning spells to remove the medicinal pill fragrance from her body. Only then did those low-level demon beasts quieten down a little.

However, it was unknown what these low-level demon beasts were thinking. They actually stayed close to Yun Chujiu's courtyard and did not leave. It was easier to deal with the smaller ones. The destructive power of those large-scale demon beasts was astonishing. They broke the frame of the dormitory around Yun Chujiu. Therefore, Yun Chujiu's dormitory became the only dormitory that stood upright at the foot of the mountain.

Those odd-job workers were simply out of luck. The perfectly fine house had turned into ruins when they woke up. What the hell had happened?
