

The Yun Family's Ninth Child is an Imp! Chapter 2783

All of a sudden, the meeting hall was eerily quiet.

Master Baili's face turned green and red, red and white. He had thought that this was a good way to temper the little girl's character, but who would have thought that this fellow would lead the two good children astray as soon as he entered!

Suddenly, elder Jing snorted coldly. "Don't worry, let her gloat for a while first. When it's time to complete the mission, she'll know how powerful she is."

Everyone thought for a moment. That's right! There was still a mission in the Tranquil Heart Cave! If she couldn't finish the mission, she wouldn't be able to come out. Therefore, she had no choice but to finish the mission.

Elder Jing continued, "You guys stay here and watch. I'll go to the formation eye to make some changes and increase the difficulty of the mission."

Mountain Master Zhuo wanted to stop her, but he held back when he saw the expressions of mountain master An and mountain master Shen. Little girl, it's not that I don't want to help you, but you're just too unpopular!

Inside the Tranquil Heart Cave, the three of them were having a great time.

It was the first time that an Linchuan and Shangguan Hao had played the so-called "Fight the landlord". Naturally, they had lost miserably, but the two of them were addicted to it.

At this moment, a dignified voice sounded, "The tranquil heart mission will be activated immediately."

An linchuan said in annoyance, "Oh no! I almost forgot about the tranquil heart mission. Junior Sister Little Jiu, you can just learn from US later. Actually, the mission isn't difficult, but it requires patience."

After playing cards for a while, junior sister Yun had become junior sister Xiao Jiu. It had to be said that Yun Chujiu's ability to win people's hearts was really superb.

Yun chujiu nodded. She was still very curious about the so-called meditation mission, and it seemed to mean that there was more than one mission.

Yun Chujiu put the cards and the pony into her storage ring and waited expectantly for the so-called meditation mission one.

A moment later, several colorful bubbles appeared in the stone room and flew in the air like mischievous butterflies.

Yun Chujiu was dumbfounded. What was she doing? The person who designed this stage might not be very smart. If it were her, she would get some edible spirit fruits and fly in the air. If she caught them, she could still eat them.

At this moment, the voice from before said, "The rule of the meditation task is to catch the corresponding color bubbles. You will pass the stage after accumulating 100 of them."

Yun chujiu could not help but wonder, what kind of mission was this? Couldn't he just grab them with a casual grab? What was so difficult about it?

An Linchuan seemed to have seen through Yun Chujiu's thoughts and said with a bitter face, "Junior sister Xiao Jiu, do you think that this mission is very simple? Then you are wrong!"

Not only were these bubbles very agile, but they also changed color. Look, that one is now red. If you don't seize the opportunity to grab it, it will change into another color in the next moment.

“Most importantly, these bubbles are very fragile. If you hit them lightly, they will escape. If you hit them hard, they will break! “Therefore, senior brother Shangguan and I can only catch two or three bubbles in a day.”

Yun chujiu nodded. It sounded really difficult and torturous.

“By the way, senior brother An, how do I know what my corresponding color is?”Yun chujiu asked curiously.

“This is very simple. I will give you a bubble. You can catch whatever color the bubble is,”an Linchuan explained.

Before Yun Chujiu could answer, the voice from before announced, “The meditation mission is officially open.”

As soon as the voice fell, the bubble that was not flying very quickly began to fly rapidly. It was difficult to even find the bubble that she wanted to catch, let alone catch it.
