

## The Yun Family's Ninth Child is an Imp! Chapter 2784

The bubbles Linchuan wanted to capture were red, while the bubbles Shangguan Hao wanted to capture were yellow. Seeing that the mission had begun, the two of them quickly began to capture the corresponding color bubbles.

Yun chujiu stretched her neck and waited for a long time, but none of the bubbles flew towards her. This fellow was anxious, she pointed at the bubbles with her hands on her waist and cursed, "Which one is mine? Hurry up and fly over! If you still don't come over, I'll use lightning to chop you all into pieces!"

Finally, a bubble flew towards Yun chujiu with a crooked shape. Yun chujiu saw the color of the bubble and was so angry that she wanted to bang her head against the wall.

What happened to the red, orange, yellow, green, blue, blue, and purple? What the F \* CK was wrong with giving her a black one? !

Was he trying to make her unable to complete the mission forever? !

In the meeting hall, mountain master he laughed unkindly!

"Hahaha! Old Jing is really too wicked! He must be taking revenge for his personal grudge! There is no black in those bubbles at all. Isn't it obvious that he is trying to make the little girl unable to complete the mission?"

The others also laughed. This elder Jing was really mean. Now, they would see what the little girl would do. She would probably be so angry that she would hit the wall.

At this time, the bubble had already flown into Yun Chujiu's hand. It was pitch black, just like Yun Chujiu's current face.

This guy threw the two bamboo baskets filled with talismans on the ground and snorted coldly:

“Whether it’s the Qi Ling or the person behind the array formation, listen to me. Either you change the color of the bubbles in my hand to another color, or you add black bubbles into those bubbles, or I’ll blow up the Tranquil Heart Cave! If you don’t believe me, Let’s give it a try!”

An Linchuan and Shangguan Hao, who were still trying their best to catch the bubbles, were almost scared to death. What the hell was that? Blow up the Cave of Tranquility? Was this junior sister Jiu’s brain damaged?

Besides, were there really talismans in those two big bamboo baskets? Could it be some worthless low-level talismans?

The two of them couldn’t be bothered to catch the bubbles. After all, they didn’t need another day or two. They bent down to take a look. Oh God! They were all flame burst talismans, and they were all high-grade! Where did this little girl get so many talismans?

The two of them were shocked, and the people in the meeting hall were even more shocked.

“It’s over!”! As I said, those who get close to the Vermilion Bird will be red, while those who get close to the ink will be black. This Yun Chujiu was originally also mischievous, but she didn’t need to be so bold. Now, she has stayed in the killing Yuan sect for three months. Now, she is simply a devil of the chaotic world!”Mountain master an said angrily.

“That’s right, this little girl is too bold! No wonder she dared to blow up the self-reflection cave of the killing Yuan sect. She is simply too bold!”Mountain Master Shen echoed with a gloomy face.

“I think this little girl’s character is not bad. If she can’t do it, then beat her up. A cultivator must have such a domineering attitude!”Mountain master he said with his mouth wide open.

..

Mountain masster Zhuo swallowed his saliva. He thought to himself, if this really blew up the tranquil heart cave, he would probably be locked in the meditation cave for a few years! When that time came, what would happen to his snow jade silkworm?

Thus, Mountain Masster Zhuo hurriedly said to master baili, "Sect master, hurry up and ask Old Jing to calm down. Don't force that little girl into a corner! This old Jing is the same. Even if you did something, don't be so obvious. Isn't this clearly making the little girl explode!"

Master Baili only felt his head buzzing. If he had known earlier, he would have locked her up in the cave of reflection. If he let her blow up the cave of meditation, he would simply be a sinner of the primordial chaos sect.
