

## The Yun Family's Ninth Child is an Imp! Chapter 2801

Yun chujiu blinked her eyes and asked, "Do you want to memorize them all or do you want to do a random check?"

"Of course I want to do a random check. It will take a long time to memorize them all!" An Linchuan answered.

"That's Easy! I'm always lucky. I'll pick a few random people to memorize. Maybe the ones I memorize will be the ones I memorize." Yun chujiu stood up and looked at the motto on the stone wall.

An Linchuan and Shangguan Hao looked at each other. This junior sister Jiu was good in every way, but she loved to brag too much! There were hundreds of proverbs on the wall. How could the ones she picked be the ones she memorized?

Inside the meeting hall, mountain master he's intestines were almost turning green with regret. He had been so excited just now that he had forgotten that the fourth mission was to recite the proverbs. It was over, it was over. He was going to lose this round for sure!

The little girl had only been in there for a day and had not had the time to look at the proverbs, let alone recite them! It would be a miracle if she could pass this!

In stark contrast to his dejected expression, elder Jing and the others were naturally the ones. Haha, they could finally win back a city. Moreover, the stake this time was a million!

Very soon, the fourth mission of Calming Heart was activated. The mission voice asked, "Please answer the content of the 125th Proverbs."

Yun chujiu blinked her eyes. "I don't know."

"Please answer the content of the 216th Maxim."

"I don't know."

"Please answer the content of the 358th Maxim."

"I don't know."

..

An Linchuan and Shangguan Hao looked speechlessly at a certain Jiu who didn't know anything. wasn't this guy bragging just now? Why did he only say he did not know now?

Very soon, the mission ended. A certain Jiu received a big zero with honor and did not answer a single maxim correctly.

Without waiting for an Linchuan and Shangguan Hao to speak, this fellow ridiculed himself, "Aiya, my luck this time is a little bad. I didn't remember all the tests. I guess my luck won't be so bad next time."

An Linchuan and Shangguan Hao looked at her speechlessly. Keep bragging! Forget about the next time, you might not even be able to pass in another five days.

In the meeting hall, mountain master he felt that the tide had already turned. It was over. This one million was just wasted! Yet, he was the one who suggested to raise the stakes. He was really throwing stones at his own feet!

Elder Jing and the others naturally couldn't help but mock him. They almost started fighting again, but fortunately, they were stopped by Master Baili. Master Baili only had one wish now, and that was to end these five missions as soon as possible. He wanted these things that couldn't be transferred back to their respective peaks, so that they wouldn't cause trouble for him!

Mountain master he felt stifled in his heart. When he saw that Mountain Master Zhuo was sitting there calmly, he immediately said in a bad mood, "Mountain Master Zhuo, why didn't You Stop Me Just Now?"

Mountain Master Zhuo felt like he was cursing a dog in his heart. He actually wanted to stop him? But he didn't have the time! Moreover, even if he stopped it, this fellow wouldn't listen! And now he was blaming him, as if he hadn't lost a million spirit stones!

Mountain master he saw mountain master Zhuo's displeased expression and immediately knew that he had misspoken, he grinned and said, "Mountain Master Zhuo, I was just saying that, don't take it to heart! If you want to blame someone, blame that little girl. Look, she's already on fire, yet she's still chewing on the spirit fruit, eh? "Why does the spiritual fruit she's chewing look like the Jade Ganoderma in the courtyard of the Kaiyang Peak Law Enforcement Hall?"

Elder Jing snorted coldly. "Wasn't it because she stole it last time? ! It's because of this that the inner sect disciples of Shuangyang Peak had a conflict with her."

Mountain master he was stunned for a moment, then slapped his thigh. "AH, I remember now. Not only did this little girl pick the Jade Ganoderma, but she also went around and said that you did something indescribable, Haha!"

Elder Jing really wanted to slap himself in the face, so that he could shut his mouth!
