

The Yun Family's Ninth Child is an Imp! Chapter 2808

Yun chujiu looked at an Linchuan speechlessly. She really wanted to kick him into the sea!

Continue to bluff? Bluff your head!

If it weren't for the turtle son in her hands, that wild dragon-headed turtle wouldn't have given her a chance to speak, okay?

After the three of them finished eating, they sat together and chatted.

"Senior Brothers, how do you think we ended up in this big bastard's Nest? We were clearly in Jingxin Cave before!" Yun Chujiu said in confusion.

Shangguan Hao said, "I thought about it. There are only two scenarios. One is that there is a hidden teleportation array in Jingxin Cave, and it happened to be activated by the Earth Qi. The location of the teleportation should be random, so we were teleported to that island.

"The other possibility is caused by the Earth Qi. I have heard people say that there was such a situation before. When the Earth Dragon turned over, some people would appear tens of thousands of miles away. "It's said that this is because the earth qi is connected, which is equivalent to a teleportation array."

Although Yun Chujiu had never heard of the second theory, she felt that it sounded quite reasonable. She asked, "Senior Brother Shangguan, where do you think we should be?"

"Although I'm not sure, I think it's most likely in the sea of the ends of the Earth. "It's because it's said that someone picked up a small piece of the shell of a savage dragon-headed turtle in the end of the world. It was so precious that it caused a sensation."

An Linchuan pursed his lips. "Senior brother Shangguan, stop bullshitting! A turtle shell the size of a copper basin can cause a sensation? Is that thing that valuable?"

"I'm not bullshitting. The shell of the savage dragon-headed turtle is a good material for refining defensive spirit tools. The size of a copper basin can be used to refine many defensive spirit tools. If it's a good blacksmith, it's possible to refine an immortal tool." "Tell me, is it precious or Not?" Shangguan Hao glared at an Linchuan and asked.

Before an Linchuan could say anything, Yun chujiu stomped her feet in regret!

"Senior brother Shangguan, you should have said so earlier! If I knew that the shell of the savage dragon-headed turtle was so valuable, I would have tricked the bastard into giving us a piece!"

Shangguan Hao said speechlessly, “Junior Sister Jiu, the shell of the savage dragon-headed turtle will only fall off when it dies or ascends to a higher-level continent. Even if you can trick it, it is impossible for the savage dragon-headed turtle to be given to you.”

Yun Chujiu’s focus was on the “Higher-level continent”. She asked in surprise, “Senior brother Shangguan, is there a higher-level continent than our immortal Yuan continent?”

Shangguan Hao looked at her as if he was looking at an idiot. “If there is no higher-level continent, why do you think everyone cultivates so hard?” “If we stay in the immortal Yuan continent, even if we cultivate to the top, we can only live for a few thousand years. “Only by ascending to a higher-level continent can we obtain a longer lifespan.”

A certain Jiu really wanted to ask him, how many thousand years was that? She felt that it was already very long to live for a few thousand years, alright? A thousand-year-old tortoise with 80,000 years of age was almost as long as a tortoise, yet he was still not satisfied?

However, that was also true. Previously, she heard from the remnant consciousness of grand ancestor Yuan Tian that he and grand ancestor Hong Yuan were more than 10,000 years old together, so each of them should be several thousand years old, and they should be the top existences in the immortal essence continent, there should be no one who could live longer than them.

“What’s the name of the higher-level continent?” A certain Jiu asked curiously.

“I don’t know.” Shangguan Hao’s expression was as if it was natural.

Yun Chujiu:”...”
