

The Yun Family's Ninth Child is an Imp! Chapter 2810

The three of them quickly sank. This sea area was very deep, and the deeper they went, the dimmer the light became. It was so dark that they couldn't even see their own fingers.

The three of them could only hold hands and sink down, in case they got separated.

Finally, the three of them stepped on the seabed. The three of them held their breath and didn't dare to make a sound, for fear of being discovered by the sky-devouring whale.

After a full hour, the three of them finally heaved a sigh of relief. After such a long time without any movement, the sky-devouring whale had probably swam far away.

Only then did Yun chujiu take out the luminous pearl to illuminate the place. She was stunned by the beautiful scene before her!

There were actually countless rainbow corals growing here. The corals of various colors formed coral reefs of different sizes. Some small fish and shrimp were shuttling back and forth.

An Linchuan and Shangguan Hao were also amazed. The Hunyuan sect was located in the inner land of the immortal essence continent, so they rarely had the chance to see the sea, not to mention such a beautiful underwater scene.

“Junior sister Xiao Jiu, what should we do next?”? “If we float up, we might encounter the sky-swallowing whale again, but if we stay down there, our speed will be very slow. When will we reach the coast?” An Linchuan lowered his voice and said.

“Let’s swim for a few days first. It will be fine once we get out of the territory of the sky-swallowing whale. However, our journey will definitely be fraught with dangers. Everyone, be careful.” It was rare for Yun chujiu to put away her cheeky smile, she said seriously.

An Linchuan and Shangguan Hao nodded. Unknowingly, they had already regarded Yun chujiu as their leader. Although Yun Chujiu was younger than them and Yun Chujiu’s spiritual power was lower than theirs., but they still felt that it was not wrong to listen to her arrangements.

The three of them swam forward. Although it was a little tiring, they were in a good mood after seeing the scenery they had never seen before. Especially when a certain jiu happened to find some large pearls scattered on the bottom of the sea. She was so happy that she almost shouted twice.

“Junior Sister Little Jiu, we have made a fortune this time! These are pearls produced by the seven-colored mussel. The market price is not cheap. When we go out, we will definitely be able to sell them at a good price,” Shangguan Hao could not hide his excitement.

Yun chujiu nodded repeatedly. Haha, this is called ‘no extreme bliss comes, we are going to make a fortune!’!

However, this guy quickly understood the meaning of an idiom. Extreme Joy begets sorrow!

Just as the three of them were busy picking up the pearl, a huge suction force came over and the three of them were involuntarily sucked into a bloody mouth.

It turned out that the sky-swallowing whale had quietly followed behind the three of them and successfully struck them.

The three of them were sucked into the stomach of the sky-devouring whale along with the seawater. Yun Chujiu shouted at an linchuan and an linchuan, "Use the sword to stabilize your body! If you get into the stomach, you will die!"

The two of them quickly followed Yun Chujiu's instructions and stabbed the sword into the fish meat beside them to stabilize their bodies.

At this moment, Yun Chujiu had also fixed her own body. This fellow kept gasping for breath. Just a little bit more and he would have died. He was still too careless!

Now, the problem was, how could they get out?

The sky-swallowing whale ate from time to time. Sea water and sea beasts were constantly being swallowed. If they were not careful, they would be dragged down. They had to think of a way to get out as soon as possible.

“Junior sister Xiao Jiu, let’s use a sword to cut the belly of the fish. We will go out after that!” An Linchuan said.

Yun chujiu did not say anything. It would be great if she could use a talisman to blow up the damn sky-swallowing whale! However, if she used a sword to cut it, it would take at least ten days to half a month to go out. Moreover, she had to be wary of being washed into the stomach from time to time. It was not a good idea.
