

The Yun Family's Ninth Child is an Imp! Chapter 2860

Yun chujiu was hesitant. Should she take the risk to see the so-called monster?

Just as Yun Chujiu was hesitating, the shrill cry of the lie Yan Seal came from afar.

Yun Chujiu was stunned. She stood on the reef and looked into the distance. She saw a large group of Lie Yan seals fleeing in panic.

The red carp swam at the front. "Master, run! Run! The monster actually passed through the seal of the heavenly fire. It has already eaten several of our companions!"

Yun chujiu frowned. There was a cloud of black fog moving rapidly towards them from a distance, accompanied by the screams of the lie Yan Seals.

Some of the lie Yan seals were especially slow. They were the first to suffer.

Seeing that Yun Chujiu did not move, the red carp urged her anxiously, "Master, don't just stand there. Run! It'll be too late if you don't Run Now!"

“Run? Where do we run to? If the heavenly fire can’t stop it, where can we run to? I will go and meet the so-called monster! You Carry me there.”

The red carp actually refused in its heart because it was afraid of death! If it was not afraid of death, it would not have run so fast. This was the result of many escape experiences.

However, it did not dare to disobey Yun Chujiu’s orders. It could only carry Yun chujiu and swim towards the black fog. However, the speed of this creature was very, very slow. It could not swim as fast as those pups. It was almost as fast as rubbing against them.

Yun chujiu snorted coldly. “If you continue to Dawdle, all your companions will be eaten up. At that time, all the raging flame seals will be dead, and only you will be left. Do you think you will be happy?” Lie Yan asked

The red carp gritted its teeth. Although it was still afraid, it still gritted its teeth and carried Yun chujiu as it rushed towards the black fog at the fastest speed in its life when it thought of the companions it spent every day with.

At first, the Red Carp was still afraid, but gradually, the courage in its heart gained the upper hand. Although it was in the opposite direction from the rest of the fire seals, and was the only one who went against the flow, lie Yan was still afraid, but in its heart, there was a sense of mission and pride that it had never felt before.

Although it was not sure if the human girl on its back could save its race, it had no choice but to do so.

Other than the red carp, the few leaders did not escape either. They chose to stay where they were and would rather sacrifice themselves to protect their young.

Yun Chujiu's heart was filled with an indescribable emotion. No matter if it was humans or beasts, when faced with danger, there would always be some people who would go against the flow.

It was either because of family ties or because of responsibility. Even though they knew that there was a bottomless abyss ahead, they would still go forward bravely without turning back.

Yun chujiu's body suddenly flashed with a dazzling light. This fellow had actually broken through because of an epiphany! !

After breaking through, this fellow's face was filled with confusion and bewilderment. She had broken through from the fifth level of the spiritual void tier to the seventh level of the spiritual void tier?

Didn't they say that only lightning could break through? How could she break through just by thinking about it? Did this mean that she would be able to break through without lightning in the future?

This guy was confused. The red carp she was riding was even more confused, okay?

Oh My God, what kind of pervert was it carrying? ! At such a critical moment of life and death, she actually broke through! ? It was simply unbelievable!

The few flame seal leaders also looked at Yun Chujiu in confusion. Firstly, they were surprised that she did not escape, and secondly, they were also surprised that she had actually broken through? Lie Yan and Yun Chujiu had broken through to the seventh level of the spiritual void tier?

The black fog stopped advancing temporarily and gradually transformed into a man in a black robe. The man looked very seductive. His eyebrows were raised, and he was indescribably charming.
