

The Yun Family's Ninth Child is an Imp! Chapter 2871

The three of them left the equipment store, and Yun Chujiu went to the grocery store. This fellow had bought all the talisman papers.

“Junior Sister Little Jiu, didn’t you want to buy a knife case? Why did you buy so many Talisman Papers?” An Linchuan asked curiously.

“I’ve decided to go back and sew a knife case myself. As for these talisman papers, I have my own uses,” Yun Chujiu said indifferently.

An Linchuan saw that she didn’t want to say more, so he didn’t continue asking.

The three of them left the grocery store. An Linchuan pointed to a restaurant in the distance and said, “Junior sister Xiao Jiu, I see many people lining up outside that restaurant. Let’s go there and have a taste?”

Yun chujiu nodded, but when she got closer and took a look, this guy whispered, “Well, let’s go to another restaurant!”

An Linchuan was puzzled. “Junior Sister Xiaojiu, this self-service restaurant is very fresh when I heard its name, and there are so many people waiting in line. It must be very delicious. Let’s go in and have a taste!”

Yun chujiu looked around, then lowered her voice and said, "This is a business that I did in partnership with someone. Let's go to another restaurant."

"Junior Sister Xiaojie, you're wrong! Are you afraid that we won't pay?" An Linchuan pretended to be unhappy.

"Aiya, I don't want to trick you!" "There's something fishy going on here. Good things take a long time to get. Besides, the dishes made with expensive ingredients taste ordinary, but the ones made with cheap ingredients taste good. If we have the money, we might as well go to other restaurants."

An Linchuan: "..."

Shangguan Hao: "..."

Profiteer! A blatant profiteer!

The three of them had no choice but to go to another restaurant for a meal. During the meal, they heard a piece of surprising news.

A month ago, the Yan clan, which had been dormant, suddenly started to attack. Alliance Master Yan of the Sky Bearing Alliance had gathered many cultivators from the immortal essence continent and had already headed to the border between the human clan and the Yan clan. The situation between the two sides was very intense.

The Yan Clan?

Yun Chujiu had once read about the Yan clan in some ancient books. The Yan clan was a race between the human race and the demon race. The Yan clan was born with a cunning nature. Their strength was not as strong as the demon race, therefore, they had always been a fence-sitter.

When the human race had exterminated the demon race, the Yan clan had voluntarily curled up in the far west of the Immortal Yuan continent. Moreover, they had declared that they would never invade the human race.

At that time, the humans and the demons had been fighting for many years. Although they had won, it was a bitter victory. Therefore, they didn't have the strength to exterminate the nightmare race, so they had agreed to the nightmare race.

All along, the nightmare race seemed to have disappeared without a trace. They had always been on good terms with the humans. Unexpectedly, they had suddenly attacked.

Although the far west had always been guarded by the sky bearing union, it had been peaceful for tens of thousands of years. It was just a decoration.

Therefore, the Yan clan advanced rapidly. In less than half a month, they had killed many humans and demon beasts and occupied a large piece of land.

Yun Chujiu's mood immediately became heavy. She felt that everything was internally connected.

Xue Mo from the Divine Ax Heavenly Pit, the monsters from the Tianluo arcane realm, the human-faced octopus from the bottom of the sea, the succubus that she had killed not long ago, and the Yan clan that suddenly attacked. All of these seemed to be controlled by someone, it must be a huge conspiracy.

Yun chujiu suddenly felt helpless. She was still too weak!

Even if he was as strong as the pretty boy, he still could not get rid of his enemy. Perhaps that enemy was also part of this huge conspiracy..
