

The Yun Family's Ninth Child is an Imp! Chapter 2912

While Yun Chujiu was watching coldly from the side, San Jiaoyan and garlic nose happened to be right behind her. The two of them looked at each other and actually launched spiritual power attacks at Yun Chujiu at the same time.

Yun Chujiu's actual spiritual power was already at the seventh level of the spiritual void tier, and she was about to break through again, so she easily noticed the small movements of the two of them.

Yun Chujiu's figure flashed, and she dodged the two's attacks like a ghost. She also flashed behind the two, and one of her kicks landed directly in front of an iron-pincer blue scorpion.

Of course, the iron-pincer Blue Scorpion would not let go of its prey. In the blink of an eye, the garlic nose and San Jiaoyan lost their lives.

Leng Kui, who was beside Yun Chujiu, also noticed San Jiaoyan and the garlic nose's movements. He did not expect that Yun Chujiu had already taken care of the two before he had the time to make a move.

He was shocked. This troublemaker was even faster than him. How was this possible?

Yun chujiu did not make a move after taking care of San Jiaoyan and San Jiaoyan. She only found a safe place to stand. Although she had hidden her strength, her actual spiritual power was not as high as the cultivators in the first team. It was better to not cause more trouble.

Leng Kui stood beside Yun Chujiu and did not make a move. His mission was to protect himself and Yun Chujiu's safety. As for others, he was not interested.

Yun chujiu muttered in her heart. This was the difference between the disciples of the murderous origin sect and the mixed origin sect. If an Linchuan and Shangguan Hao knew that their spiritual power was no match, they would definitely help.

However, these itinerant cultivators each had their own thoughts, so it was better to watch from the sidelines.

After the initial panic, the alliance leader of the itinerant cultivator alliance, Zhao Zijing, finally took control of the situation. He asked the cultivators of the first team to block the attack of the iron pincers and Blue Scorpions, and covered the second and third teams to quickly pass through this area.

When everyone finally escaped, the sky was already dark. Everyone sat on the ground and panted heavily.

Yun chujiu and Leng Kui quickly buried the pot to cook. When the two of them were busy, they did not expect that someone would complain to Zhao Zijing for them.

After dinner, Yun Chujiu was brought to Zhao Zijing. Leng Kui obviously could not stand by and watch, so he also followed.

As soon as Yun Chujiu arrived, she knew that this matter wouldn't end well. Not only was Zhao Zijing present, but the leader of the unaffiliated cultivator alliance was also present, and there were many onlookers.

"Leng Xiaojiu, someone reported that you secretly harmed Lin Gang and Zhao Qiang. What do you have to say?" Zhao Zijing said with a gloomy face.

Zhao Zijing was a thoughtful person. Otherwise, he wouldn't have spent so much effort to become the leader of the unaffiliated cultivator alliance.

However, he also knew that everyone was only treating him as a matter of face. They were not convinced by him in their hearts.

He felt that after the incident with the iron pincers and blue scorpion, his prestige should have increased. Just as he was about to take another step forward, someone reported that Yun Chujiu had secretly harmed San Jiaoyan and the garlic nose, he felt that this was a great opportunity to establish his prestige and win over the hearts of the people. Therefore, he prepared to make an attack on Yun Chujiu.

"I have nothing to say, because I didn't harm them at all," Yun Chujiu said in a neither servile nor overbearing manner.

Zhao zijing snorted coldly, "How stubborn! Liu Zhuang, come over and tell me what happened."

A bearded man walked out from the crowd and said through gritted teeth,

"Alliance leader, I saw it with my own eyes. This Leng Xiaojiu kicked Lin Gang and Zhao Qiang to the front of the steel pincer blue scorpion. They, they lost their lives just like that!

"President, we came here to fight against the nightmare race and for the safety of the immortal essence continent. Leng Xiaojiu killed Lin Gang and Zhao Qiang for a personal grudge. It's an unforgivable crime!
"Please help them!"
