

The Yun Family's Ninth Child is an Imp! Chapter 2918

Feng Zhi and Leng Kui's throats were in their throats. They thought to themselves, even though the wolf pack had been tricked temporarily, would they really give up on the meat that was right in front of them?

A trace of treachery flashed across the Wolf King's eyes. It howled a few times and the Wolf Pack left under its lead.

Just as Feng Zhi and Leng Kui were about to escape, they were stopped by Yun Chujiu with her eyes, then, she sighed and said, "Sigh, I haven't eaten wolf meat for a long time. I thought I could get a few to try, but I didn't expect these sand sea blood wolves to be so smart. What a pity!"

Feng Zhi and Leng Kui were shocked to find that after Yun Chujiu said that, the Wolves suddenly sped up their escape and soon disappeared.

The two of them felt that their worldview had been greatly impacted!

The eight flags made of broken white cloth scared the wolf pack away? ! How was this possible? ? ! were those sand sea blood wolves idiots? ?

Yun chujiu put the eight flags into her storage ring and said in a low voice, "What are you still standing there for? ! Why aren't you running? !"

Feng Zhi and Leng Kui finally reacted and ran with Yun Chujiu.

The two of them originally thought that Yun chujiu would not be able to keep up with their speed, but they did not expect that Yun Chujiu had been following behind them neither slowly nor slowly. Even if they had used all their strength, Yun Chujiu had still been following behind them, and she did not look like she was struggling at all.

How was this possible? She was only at the sixth level of the Ling Xuan Realm, how could her movement technique be so fast?

The three of them ran for a distance before slowing down. Feng zhi asked in puzzlement, “Little girl, were the eight flags you planted just now really just ordinary white cloth? Did you do anything to them?”

Yun chujiu smiled and took out a flag for him to look at. Feng Zhi looked left and right but didn’t see anything strange. He had to believe this fact — this was the most ordinary white cloth.

Yun chujiu saw Feng Zhi’s puzzled face, she smiled and said, “The sand sea blood wolves are the most suspicious. When they see us not running but letting them hunt us, they will definitely think that we have set a trap. “Moreover, I also mentioned the iron pincer blue scorpion. The Wolf King will think that this is a trap.”

Leng Kui said from the side, "Then what you said about roasting the wolf meat later is to make the Wolf King believe that this is a trap?"

"Well, brother, you're not too stupid. Keep working hard!" Hei Xinjiu said with a smile.

Leng Kui glared at her. He had thought that this little girl was not so annoying anymore, but now that he looked at her, she was still very annoying.

..

The wolf pack that was fooled by the eight-sided white cloth flag was afraid that Yun Chujiu would do something funny again. They ran all the way and happened to come face to face with the loose cultivator alliance!

The unaffiliated cultivator alliance had a large number of people, so they were naturally not afraid of the dozens of sand sea blood wolves. After a round of fighting, the Wolf Pack was defeated and fled.

The bearded man said gloatingly, "These sand sea blood wolves came from the front. Leng Xiaojiu and the other two must have been eaten by these sand sea blood wolves. They really deserve it!"

The others also echoed. They were just saying that this was retribution and deserved it.

A trace of pride flashed across Zhao Zijing's eyes. It was just as well that these three people had died. This way, he was not afraid that they would spout nonsense in front of the Allied army!

The reason why he had come to fight against the Nightmare clan was to gain a good impression in front of so many mighty figures. He might even be able to join a super sect like the primordial killing sect or the primordial chaos sect.

If he was lucky, he might even be able to become an elder. An elder of a super sect was much better than being an itinerant cultivator. Even if they could not join a super sect and were valued by a super family, being a guest elder was not bad.
