

The Yun Family's Ninth Child is an Imp! Chapter 2956

Yun chujiu blinked her eyes, rubbed her chin and pondered for a while, then said, "General Jia, I'll go to the other side to take a look. Are You Coming?"

Jia Yuanchen shook his head like a rattle-drum. Was this Leng Xiao Jiu crazy? Go to the other side to take a look? You're going to die there, right?

"Alliance Chief Leng, you... Are you feeling a little feverish? Although the other side is not the main force of the Yan clan, there are more than a thousand people stationed there. If you go down there, aren't you going to die?"

"I think there should be no one in the other camp. Even if there are people, there are only a few of them. Doesn't General Jia feel that being suppressed by the Yan clan is very sullen? "Or is it that General Jia is not as bold as a little girl at the sixth level of the Ling Xuan Realm Like Me?" Yun Chujiu said disdainfully.

Jia Yuanchen had always been a firecracker. How could he withstand Yun Chujiu's goading? He immediately snorted and said, "I don't Dare? I'm just afraid that something will happen to you. When the time comes, it will be time to extort my spirit stones again!"

Yun chujiu glanced at him. "General Jia, you should watch your words. When did I extort your spirit stones? That was all you who lost to me. Can you have a little bit of gambling ethics? Stop wasting time. Let's go down and pick up the scraps!"

Hei Xinjiu said as she tied a rope around her waist and climbed down the opposite mountain.

Jia Yuanchen gritted his teeth and had no choice but to follow her to the foot of the opposite mountain.

When the two of them reached the foot of the mountain, there was still no movement from the other side of the Nightmare Race's base. Hei xinjiu stretched her neck and cursed. Occasionally, one or two people would poke their heads out from the other side of the base, but they did not form an entire team to attack.

Hei xinjiu blinked her eyes and walked forward for a short distance. Jia Yuanchen's heart was in his throat. The nightmare race might have set up a trap and was waiting for them to enter. This Leng Xiaojiu was really courting death! Most importantly, it was fine if she wanted to die, but she had to drag him along. It was really despicable!

Yun chujiu stretched her neck and shouted a few more words, but there was still no whole team coming out. She stopped in her tracks and said, "Let's go, we're going back."

Jia Yuanchen was stunned. "You're not going forward? Didn't you say you were going to pick up scraps?"

"If you're willing to go, then go by yourself. I'm timid, so I'll go back first." After Hei Xinjiu said that, she ran back.

Jia Yuanchen: "..."

What did she mean by he was willing? He was obviously tricked by her, alright?

Jia Yuanchen had no choice but to follow Yun chujiu back to the foot of the mountain, following the rope up to the top.

"General Jia, what do you think?" Hei Xinjiu narrowed her eyes.

Jia Yuanchen was stunned. "What do you mean, what do you think? We haven't gone far, what can we see?"

"There are less than a hundred people in the camp of the nightmare race, perhaps only a few dozen people. Their main force must have gathered at a certain pass. They might launch a fierce attack tonight," Yun Chujiu said with a frown.

"Alliance leader Leng, don't joke around! Didn't I tell you before? Even if the nightmare race launched an attack, it would be impossible for them to gather all their forces together. "Moreover, we did not discover any signs of movement from the opposing garrison." Jia Yuanchen curled his lips and said.

The corners of Yun Chujiu's lips curled up. "Of course I'm not spouting nonsense. First of all, we have already reached the foot of the mountain, and we have scolded them so harshly. The Yan clan did not send anyone out either. This is very abnormal. "Secondly, didn't you notice that there is something unusual about the southern side of the Yan clan's Garrison?"

Jia Yuanchen's face was filled with bafflement. "I didn't notice it. Isn't it just some *Bletilla splendens* and some shrubs?"
