

## The Yun Family's Ninth Child is an Imp! Chapter 2962

A few soldiers stationed in the nightmare clan walked to the other side suspiciously. Who would have thought that there was still an ambush behind them? In just a short moment, a few soldiers stationed in the nightmare clan had already died.

Yun chujiu followed the same pattern and dealt with a few more soldiers stationed in the nightmare clan. Only when she was certain that there were no fish that had escaped the net did Yun chujiu finally heave a sigh of relief.

It looked like her judgment was correct. The Yan clan had indeed gathered all their main forces to the killing wind. Because the Yan clan had a secret communication technique, Yun Chujiu was afraid that the news would leak out, so she did not leave the Yan clan alive to interrogate them.

An Linchuan said with a face full of admiration, "Alliance Chief Little Jiu, I have to hand it to you! You are simply Inhuman! You are a God!"

Yun chujiu did not pay attention to this idiot. She searched the Yan clan's garrisons, but did not find anything else.

This guy rolled his eyes. The Yan clan had a secret communication technique. If there was no response, they might send people over to check. To be safe, it was better to leave some people behind.

Hence, Yun Chujiu left a dozen people behind and instructed them to wait until the battle started before leaving.

After Yun Chujiu made the arrangements, she then left the Yan clan's base with her people and returned to the foot of Fang Dou mountain.

Yuan Xi and the others were waiting anxiously. When they saw that Yun Chujiu and the others were safe and sound, they finally heaved a sigh of relief.

Yun chujiu threw the corpse of the nightmare clan's base onto the ground. "General Yuan, do you believe me now? ! There's not much time left, let's split up and move out.

"Now, go to the Alliance Army's tent as fast as you can and report this matter to Alliance Master Yan. I will bring my men and wipe out all the nightmare clan's bases across the few passes. "This way, after you get the document, the Alliance army at the few passes will be able to quickly rush to the Sha Feng Mouth.

"Oh right, bring the corpses of the Yan Clan's encampment to Alliance Master Yan, lest those old fogies still don't believe it."

The corners of Yuan Xi's eyes twitched. He did not need Yun chujiu to say anything more, he would do his best. Because this was the only way to make up for his mistakes. Otherwise, Alliance Master Yan would definitely punish him for his crimes.

The sky grew darker and darker, and it was finally midnight.

Inside the Yan clan's meeting tent, the Yan clan's crown prince's fingers were rhythmically tapping on the table. Darn girl, this crown prince has waited for so many days, and it's finally time to kill you. Let's see how arrogant you will be when the time comes!

"Crown prince, just now, a subordinate reported that when we were in routine contact with a few stations, we discovered that there were a few stations that did not reply. Will there be any problems?" The commander of the Yan clan's army, Mo Luan, said with some worry.

He did not approve of the Nightmare Race's crown prince's operation this time. It was really too risky!

If it succeeded, it would naturally be very good. But if it failed, the human race would form an encirclement, and their nightmare race would suffer heavy losses. The Crown Prince's courage was really too great!

The Nightmare Race's crown prince frowned. He did not think that the human race had the courage and boldness to give up the other passes to surround and annihilate them. But for the sake of safety.., he said, "Then send a few people to take a look. After all, Fang Dou mountain is not too far from here."

Very soon, it was midnight.

“Crown prince, there has been no news of the people we sent previously. This is really a little strange. Why don’t we postpone the operation for a while!” Mo Luan advised.

The crown prince of the Yan clan snorted coldly. “The vast desert is different from other places. Our Yan clan’s secret arts will sometimes fail. Perhaps we just happened to catch up this time.

“If the humans had sensed it, we wouldn’t have been unaware of it at all. “If we had missed this opportunity, it would have been even more difficult to break through the human defense line. “There’s no need to say anymore. Give the order to set off!”
