

## The Yun Family's Ninth Child is an Imp! Chapter 2973

The nightmare soldiers were not stupid. They naturally knew that Yun chujiu was trying to make them show mercy. Everyone hesitated for a moment, but they still moved the bonfire a little.

They consoled themselves. After all, they had not burned this bad news bag to death after so many days. It should not be a big deal to move it a little.

Hei Xinjiu used the story to get close to the nightmare race soldiers while thinking of ways to escape.

Now that Ao Ji wasn't in the base, it was the best time to escape. There was no need to think about forcefully breaking in. Although she was quite abnormal, it was hard for her to fight against four hands with two fists. There was no way to escape.

She had thought about giving these nightmare race soldiers some medicine when they were roasting meat, but it was useless even if they were drugged. There were still many nightmare race soldiers outside, and it was completely useless.

This fellow thought about it for a long time, but there was only one way!

That was to have guai Cao summon the demon beasts. Since she was hiding inside the bastard's shell, she was not afraid of being attacked by the demon beasts. Moreover, these soldiers of the nightmare race would not allow the Demon Beasts to trample on their encampment.

At that time, she could take advantage of the chaos to leave. As long as she was allowed to leave the encampment of the nightmare race, she would have the confidence to shake off these people.

Right, that was what she was going to do!

That night, Hei Xinjiu made the guai cao emit a fragrance to seduce the Demon Beasts. Hei Xinjiu was afraid that the demon beasts that came would be of no use, so she made the guai Cao summon them with all her might.

What Hei Xinjiu did not expect was that the fragrance of the Guai Cao was not only useful to the demon beasts, but it also had a fatal attraction to the Nightmare Beasts.

Before the demon beasts could be lured over, the nightmare clan's base was in chaos!

The Nightmare Beasts that were originally guarding the encampment were rampaging around the encampment like crazy. They had only one destination, and that was Hei xinjiu, who was being roasted by the fire.

The Yan Clan's encampment was caught off guard by the sudden chaos. These nightmare beasts had been tamed for a long time and had always been very obedient. Why did they suddenly go crazy tonight?

The Yan clan's soldiers wanted to stop these rampaging nightmare beasts, but these nightmare beasts seemed to have gone crazy. As a result, the encampment of the Yan clan was in chaos.

Hei Xinjiu looked out through the cracks in the shell and was delighted. Aiyo, I didn't expect the fragrance of Gou Weiba's tail to have an effect on the nightmare beasts. This was truly a heaven-sent opportunity. If she didn't run now, when would she do it? !

The soldiers guarding the bonfire were all taming the Nightmare Beasts, so they didn't notice the suspended shell.

Hei Xinjiu took out a set of nightmare race soldiers' clothes from her storage ring. As for the source of the clothes, cough, cough, when they had ambushed the Nightmare Race's encampment previously, this fellow had handed over the nightmare race soldiers' corpses to Yuan XI, but the storage ring had been confiscated by this guy.

After Hei Xinjiu changed her clothes, she adjusted the level of her spiritual power to the first layer of the spiritual void tier, and swallowed another disguise pill. Then, she had Gou Weiba stop releasing the fragrance, and sprinkled a box of incense powder on her body to cover the fragrance of the Guai Cao. Only then did she let the little bastard put away the big turtle shell, then jumped onto the ground and blended into the crowd.

This bastard shouted hoarsely in the crowd, "Oh my God! This is bad! Something Big has happened! The turtle shell is gone! Yun Chujiu has escaped!"

The nightmare soldiers turned around and saw that the bonfire was empty. The big turtle shell had actually disappeared into thin air, causing even more chaos.

Although the guai Cao had stopped releasing the fragrance, the Nightmare Beasts had not regained their senses for a moment and were still ramming around mindlessly.

Hei Xinjiu blended into the crowd, her fragrance choking the surrounding nightmare race soldiers and causing them to sneeze non-stop. This fellow was quickly despised and the nightmare race soldiers kept their distance from her.
