

The Yun Family's Ninth Child is an Imp! Chapter 3017

General Manager Ji let the Lord and Hei Xinjiu into the library in fear and trepidation. Hei xinjiu sized them up. The library of the Yan clan's imperial palace wasn't small, but there were pitifully few books, most likely, the books from back then had been brought to the immortal Yuan continent.

Hei xinjiu sized them up as she wondered what this crazy lord was looking for in this library, Sheng Zun? Is there a book that he needs here?

Just as Hei Xinjiu was wondering, Sheng Zun picked up a book and sat down on the chair next to him to read.

Hei Xinjiu was stunned. Could it be that this crazy Lord did not have any goal and was just here to read to pass the time?

Hei Xinjiu secretly observed for a while. Seeing that Sheng Zun was concentrating on reading, she also began to pick and choose.

This guy specially picked some strange stories and other books to read. When he saw the contents of one of the books, his eyes immediately lit up!

Thousand-leaf golden-grade Lotus!

The transformation pill only lacked this herb. He did not expect that the dark continent actually had a thousand-leaf golden-grade lotus!

Hei Xinjiu took a closer look. The contents of the book only briefly introduced the thousand-leaf golden-grade lotus and its effects, at the end of the book, she wrote, "Although the thousand-leaf golden-grade lotus is only a low-grade heaven-grade lotus, it is extremely rare. It is said that there are thousand-leaf golden-grade lotuses growing in the fallen God Abyss."

Hei Xinjiu was stunned. Fallen God Abyss?

The deranged Holy Lord had read a book a few days ago called "Strange Records of the fallen God Abyss". She wondered if Sheng Zun would go there. If he did, she could get some lotus seeds of the thousand-leaf golden-grade lotus.

Just as Sheng Zun was thinking about it, he heard the lord say with slight disdain, "How can there be such a vulgar book in the library of the Nightmare Race's imperial palace?!"

As he said that, a book was thrown not far away from Hei Xinjiu. Hei xinjiu subconsciously stretched her neck and took a look. Her eyes immediately lit up when she saw a few big words written on the cover of the book: Seventy-two male concubines of the domineering empress.

Aiyo!

Initially, she did not have much hope. She thought that there would not be such a storybook in the palace library. She did not expect that there would really be one!

This fellow glanced at the Lord and saw that the Lord was looking down at the book. This fellow quietly picked up the storybook, then deliberately hid in a corner and began to read it happily. Sheng Zun looked at Hei Xinjiu with a smile on his face.

Needless to say, although the spiritual power of this nightmare race was a little inferior, the standard of this storybook was still pretty good.

After Hei Xinjiu finished reading the script, she found that there were several books on the ground beside the lord. Apparently, they were all despised. They were all scripts that Hei Xinjiu liked, Sheng Zun.

Hei xinjiu blinked her eyes and walked over to pick up the scripts on the ground. When she was about to turn around and read happily, she heard the Lord say in a low voice, "Stop!"

Hei Xinjiu's heart sank and she said nonchalantly, "Sheng Zun, since you don't want to read them, I'll put them back for you."

"I don't think there should be such a vulgar book in the library of the palace, so I'm going to destroy it. I remember that there's another one that was thrown to your side. Hand it over,"the Lord said coldly.

Hei Xinjiu rolled her eyes and said, "Sheng Zun, you are absolutely right! "It's true that these vulgar books should be destroyed, but you have a body of ten thousand gold. It's a waste to ask you to destroy these books. I'll do it for you!"

Hei Xinjiu felt that it had been almost a century before sheng zun said coldly, "That's fine. There are still a lot of them over there. Put them away and destroy them when you go out."
