

The Yun Family's Ninth Child is an Imp! Chapter 3078

Wen Qianchuan was so angry that he gritted his teeth, but he did not dare to disobey Murong Hanlie. He could only glare at Hei xinjiu without saying a word.

Leng Kui's admiration for Hei Xinjiu rose to another level. It was still junior sister Xiao Jiu. Even if the Teacup fell, even if he scolded Wen Qianchuan, he could only suffer in silence.

"Master Xiahou, how about this? I will give you another ten days of discussion time. If there is still no result by then, don't blame master for acting old." Murong Hanlie said with a cold look in his eyes.

Master Xiahou had no choice but to agree.

Only then did Murong Hanlie leave the meeting hall with Wen Qianchuan and the others.

"Bah! What the hell! Master, do you really intend to give the position of master to that Old Thing?" Hei Xinjiu asked.

Master Xiahou didn't comment and instead asked, "Little girl, what do you think about this?"

Hei Xinjiu's heart moved slightly as she blinked her eyes, she probed, "Master, if I were to say that I was to say that I was to say that I was to say that if I had a higher seniority than you and the Lost Sect Master Ring, would you give up the position of Sect Master to me?"

Before Master Xiahou could say anything, mountain master Zhao from the fire peak said, "Haha, Little Girl, you sure have a lot of imagination!"

"Don't say that it's impossible. Even if it's true, it's impossible for a little girl like you to become the sect master of our killing Yuan clan."

Yun chujie pouted, "Mountain Master Zhao, why is that?"

"Isn't that simple?" "If we really let a little girl like you become our sect master and our elder, where would we put our face?" ? ! "Even if you really have the sect master ring, with your low spiritual power, can you keep your sect master position?" Mountain Master Zhao said disdainfully.

"But, the sect master said that because I'm a human, he wants to give me the sect master position!" Hei Xinjie said unwillingly.

Peak Master Mo of Water Mountain said with a smile, "Little girl, this is just a delaying tactic of the sect master. Even if he really gives the position of sect master to you, you are just a figurehead. When the limelight has passed, you can find a reason to return the position of sect master to Master Xiahou."

"Then why are you so polite to Murong Hanlie? Can't you just fight him out?" Hei Xinjie asked in confusion.

"We are indeed concerned about his official identity, but that's not the most important thing. The main thing is that his spiritual power is higher than all of us here, even higher than the grand elders.

"Also, their branch has occupied the sea of ten thousand ruins for several years, and their strength can not be underestimated. If they turn hostile, I'm afraid that the immortal essence continent will cause a stir.

"Moreover, with this opportunity, we can also see how many people in the sect are traitors. It's just the right time to clean up the sect."

Hei Xinjie cursed in her heart. She knew that these people would not be so silly and sweet. Indeed, they had other plans.

Fortunately, she did not reveal the sect leader's ring rashly. Otherwise, not only would she admit it or not admit it, she might even get herself killed.

This incident made Hei Xinjiu understand once again that strength was the absolute truth! Her spiritual power wasn't high now, and she didn't have her own forces. It was a Fool's dream for her to rely on the sect leader's ring to gain a firm foothold in the killing Yuan sect.

This fellow sighed inwardly. The so-called alliance leader of the unaffiliated cultivator alliance had basically ended the war, and he had become a commander without any support. Otherwise, he would still be able to show off his might.

Sect Master Xiahou saw that Yun Chujiu was in a low mood, he smiled and said, "Little Nine, you have just returned. Go back and rest first! Don't worry, you have made contributions to the human race this time. After our discussion, we will definitely reward you heavily."
