

## The Yun Family's Ninth Child is an Imp! Chapter 3089

When the people of the sea of ten thousand ruins heard that Murong Hanlie and Wen Qianchuan had committed suicide, they became even more confused. What should they do next?

They did not have much confidence in attacking the murderous origin sect to begin with. Most of them had water spirit roots and were not good at fighting on land. Now, they were even more tempted to retreat.

Thus, after Murong Hanlie's followers were released, they led the people of the Thousand Ruins Sea to retreat in Dejection.

The battle for the sect master of the primordial murder sect had come to an end. Moreover, they had taken the opportunity to eliminate some of the sect's scum. This could be considered an unexpected gain.

..

In a hidden valley somewhere in the immortal essence continent, the purple-faced woman was so angry that she almost went mad when she heard her subordinate's report.

"You said that the people from the sea of ten thousand ruins have all retreated?"

"Yes! My lord, Murong Hanlie had contacted me the day before and said that things were progressing smoothly. I didn't expect that he would be killed the next day."

Moreover, the murderous origin sect had even twisted the truth, saying that Ji Qian was a traitor, a deserter, and now that the public opinion in the immortal origin continent was leaning towards the murderous origin sect, I was really caught unprepared.., there was simply no time to react."The gold-masked man knelt on the ground as he spoke in fear and trepidation.

The purple-masked woman waved her hand, causing the gold-masked man to instantly collapse to the ground. He did not even dare to wipe the blood from the corner of his mouth as he hurriedly kneeled again. "Sir, this time, it is indeed my fault. This subordinate knows his mistake."

The purple-masked woman snorted coldly. "I have underestimated the essence-killing sect. I did not expect that they would actually come up with such an idea. Otherwise, once the two sides engage in battle, our people would take the opportunity to intervene, and the essence-killing sect would be ours!"

"Forget it. Get Up and tell us the people we have planted in the two sects to find a way to provoke a fight between the origin-killing sect and the origin-mixed sect, so that they can kill each other."

"Yes!"

..

Although Hei Xinjiu had been enjoying herself recently, she was not happy at all. It had been a long time since she had been struck by lightning. How could she be struck by lightning?

She followed the principle of asking if she did not understand. When she captured someone, she asked, "How can she be struck by lightning?"

The disciples of the Sky Killing Sect felt that this Yun chujiu was most likely crazy!

However, they did not dare to not answer. The answers were also varied. There were things like being struck by lightning for doing bad things, being struck by lightning for not keeping one's oath, and being struck by lightning for insulting the Tian Dao.

Hei Xinjiu wanted to cry, but she had no tears. She had tried all these, but she had not been struck by lightning. She was really worried to death! Could it be that she had to return to the chaos origin sect and enter the cave of reflection?

However, Master Baili was even better than monkey. He did not punish her to enter the cave of reflection at all!

Hei Xinjiu's mood was extremely depressed. She decided to take a stroll on earth peak to relax.

The reason why this fellow chose Earth Peak was because this fellow had harmed the fire peak, Wood Peak, and Water Mountain of the murder origin sect. He had not harmed the earth peak before. He had not even been there. It was a good opportunity to take a look.

When Hei Xinjiu hopped onto the Earth Peak, although the earth peak disciples did not reject her as much as before, they still avoided her as much as possible. Wherever Hei Xinjiu went, the earth peak disciples disappeared without a trace.

Hei xinjiu touched her nose. She was already a hero of the human race now, okay? Why was she so afraid of her? Was she that scary?

The five peaks of the murderous origin sect got their names because of their own characteristics. For example, the trees on the wood peak were verdant, and most of the disciples had wood-type spiritual roots. Similarly, most of the disciples on the Earth Peak had earth-type spiritual roots. Their attacking methods were earth cracks, earth thorns, earth walls, earth shields, and so on.

The scenery on the earth peak was very scarce. Hei Xinjiu thought wickedly that it was probably because the disciples of the earth peak often damaged the surface of the ground when they were cultivating, so the plants did not grow well.
