

The Yun Family's Ninth Child is an Imp! Chapter 3115

The matter of the rabbits was not Yun Chujiu's original intention.

She had asked Mao Mao Qiu to keep the 'modified' rabbits into the great void mystic realm. She did not expect that Mao Mao Qiu would not be able to keep a few of them no matter how many times she kept them.

Hei Xinjiu was in a dilemma. She decided to kill them. She could not bear to do so. Furthermore, Meng Yanshou was begging for mercy from the side. Yun chujiu had no choice but to bring the weird-looking rabbits out and prepare to release them to the back mountain of Jin Feng.

Peak Master Lian, who had hurried over, stared at the messy rabbits behind Hei Xinjiu with his eyes wide open!

Heavens, what were these things?

Some of them had fur that fell to the ground, some were six feet long, some had two rabbit heads, and some had five legs?

Were these wind-edge rabbits?

Hei xinjiu lied through her teeth, "Peak Master Lian, these were all run out of the Earth Tower. I couldn't bear to kill them, so I brought them out."

The earth tower trembled with anger!

What did this have to do with it? You were the one who did it!

But Peak Master Lian believed it. Such a strange-looking wind blade rabbit could only be found in the Earth Tower. It was definitely not found in the immortal Yuan continent.

“Peak Master Lian, what is the procedure for me to become an inner disciple?” Hei Xinjiu asked while blinking her eyes.

Peak Master Lian was stunned. “The procedure for me to become an inner disciple is not complicated. However, there are only two ways for a handyman to become an inner disciple. One is to get into the top 30 in the sect competition three months later, and the other is for your spiritual power level to reach the spiritual void level.”

Peak Master Lian did not continue, because he felt that no matter which one it was, he would not be able to do it, let alone now that she had become a little doll.

Yun chujiu nodded. After saying her goodbyes, she rode on the giant rabbit and ran away.

Peak Master Lian looked at the bunch of rabbits and rubbed his eyes. Why did he feel like he was in a dream?

Hei Xinjiu brought the bunch of rabbits and rushed straight to the meeting hall. After this fellow found Master Xiahou, he went straight to the point and said, “Master Xiahou, I want to become an inner disciple.”

This fellow originally wanted to tell Master Xiahou that she was already at the ethereal level, but he did not expect that before she could say anything.., master Xiahou said, “Sure. You have made a huge contribution in the Battle of the Nightmare Clan, and the sect has never rewarded you. I will transfer you to an inner disciple as a reward for you!”

Upon hearing that, hei xinjiu immediately swallowed her words that she was already at the first level of the ethereal space realm. It was good that she did not expose herself. She could continue to pretend to be a pig to eat a tiger.

After thanking Master Xiahou, Hei Xinjiu rode the giant rabbit and strolled to the dormitory.

Many disciples who were watching the show had gathered outside the meeting hall. They were pointing at Hei Xinjiu's group of weird-looking rabbits.

"Damn, are those all rabbits? I've never seen such weird-looking rabbits before."

"What's so weird about that? ! Yun chujiu turned into a baby when she came out of the Earth Tower last time. I guess these wind-blade rabbits must have suffered the same fate as her."

"You're right. It seems that Yun Chujiu is quite lucky. Otherwise, if she turned into two heads and five legs, she wouldn't be able to see anyone!"

..

Hei Xinjiu sat on the giant rabbit and listened to the discussions of these people. She was so angry that she rushed into the crowd with a bunch of rabbits.

The disciples quickly spread out. One of them, with a sharp nose, threw a palm at the two-headed rabbit.

He felt that although these rabbits were strange-looking, they were only level one wind-blade rabbits. He could kill them with his little finger, not to mention this palm.
