

## The Yun Family's Ninth Child is an Imp! Chapter 3141

Yun Chujiu was stunned as she listened to Meng Yanshou's story.

Meng Yanshou was obviously very pleased with itself. It wagged its short rabbit tail and continued, "At that time, it was also known as the primordial era. There was no record of that era at all.

"After that, an unknown change happened. A piece of land became two pieces. That era was known as the ancient Mesozoic era. The record was also blank."

"That's not right, curly hair. Since there are no records, how did you know?" Yun chujiu asked in confusion.

Meng Yanshou said proudly, "I don't know how I knew. Anyway, I knew it. It's probably because I'm good-looking."

Yun chujiu almost vomited!

To be so narcissistic, there was no one else!

Meng Yanshou continued, "Tens of thousands of years later, the two continents suddenly began to break apart, and eventually became several continents with different levels of spiritual power.

This was the last generation of the ancient era, which is what you humans call the ancient era. Divine artifacts and ancient divine beasts were also produced in the last generation of the ancient era.

Soon after, the first great war between gods and demons broke out. After the gods and demons demarcated their territories, they lived peacefully for tens of thousands of years.

Tens of thousands of years later, another change occurred.

The gods inexplicably began to die one by one, and in the end, not a single one was left.

This made the demon extremely happy. He thought that they had finally arrived at their world!

“Unexpectedly, after tens of thousands of years of reproduction, the human race began to develop and grow. The demon race’s attacks on several continents ended in failure.”

Meng Yanshou said as he vigilantly observed his own situation. He was afraid that he would be punished by the Tian Dao. However, there was nothing unusual. It seemed that these words could be said.

Yun chujiu received a huge shock. It turned out that what she knew was just the tip of the iceberg. However, all the gods had been destroyed, so was it really impossible to see Qi Qi again?

When the Meng Yanshou saw Yun Chujiu’s distracted look, it curled its lips. Tsk! No matter how powerful it was, it was just a little girl. How could it be compared to an ancient beast like it? However, it seemed to have lost a part of its memory. Otherwise, it would be even more awesome!

Just as the Nightmare Beast was feeling proud, it heard Yun chujiu snort coldly, “Curly hair, aren’t you very proud?”

Meng Yanshou suddenly shrunk its neck, “Little Fairy, what are you talking about? ! I will always be your beast and will always listen to your orders.”

Yun chujiu glanced at it. “If I want to go to the towering sky continent, what can you do?”

“Little Fairy! Whether I have a way or not, you can’t go! With your level of spiritual power, you are just an ant in the towering sky continent. You will definitely be gnawed until there are no bones left!”

“When I went from the Qing Xuan continent to the Tian Yuan continent, or from the Tian Yuan continent to the immortal Yuan continent, I was just an ant. What about now? Am I not still their ancestor? !”!

“Cut the crap. Just tell me how to get to the towering sky continent.” Yun Chujiu’s eyes were full of confidence and dazzling.

Meng Yanshou didn’t dare to not say it. He could only say, “There are two ways. One is that after your cultivation base reaches the peak of the ninth layer of the ethereal space realm, you will be teleported to the towering sky continent.

“The other way is to find the enchantment between the immortal Yuan continent and the towering sky continent. Through the enchantment, you can enter the towering sky continent. However, Little Fairy, you must not be rash! Being Rash is the devil...”

Meng Yanshou was so regretful that its intestines turned green! If it had known this would happen, it would not have shown off in front of this little girl! If the venerable one knew that it was the one who said it, he would definitely not spare it.
