

The Yun Family's Ninth Child is an Imp! Chapter 3149

Finally, Yun Chujiu walked to the edge of the bottomless ice abyss and looked down. She could not see the end of the abyss, only the biting cold wind that swept down like an ice blade.

Yun chujiu set up the spiritual energy shield and thought of a solution.

Since it was forbidden to fly, the chopping board was definitely not going to work.

The ice walls around her were extremely smooth, and even the sticky threads of the wool ball could not stabilize her body. How could she get down?

Yun Chujiu finally let the little bastard take out the big turtle shell. Yun chujiu then used several layers of cloth to make a simple parachute and fixed it on the turtle shell.

Finally, she covered the turtle shell with several layers of fur. This way, even if she really fell to the ground, she would still have a buffer.

Yun Chujiu was ready. Only then did she let the turtle shell roll down toward the bottomless ice abyss.

While she was falling, Yun Chujiu had been carefully observing the condition of the parachute through the cracks. Fortunately, the cloth she used was very tough iron linen. Although some of it was cut by the cold wind, it did not affect her overall use.

Finally, the turtle shell rolled down to the bottom of the bottomless ice abyss.

The bottom of the bottomless ice abyss was actually a huge ice field at the bottom of the valley. According to Xue Wuji, Danger was everywhere below. Yun Chujiu was on full alert.

Yun chujiu originally thought that it would be very dark since there was no sun all year round. She did not expect that the entire ice field was emitting a faint blue light.

Yun chujiu took a closer look and realized that there were many faint blue mosses growing on the ice field. The light was emitted by them.

Yun chujiu sprinted with her short legs. She did not run far before she was surrounded by a group of big ants that were also emitting a faint blue light.

Yun Chujiu had never seen the records of these ants, but it was obvious that they were very ferocious!

The eyes of the ants revealed a greedy look. Such a tender little person would definitely be a great tonic for them. It would be a good tonic for their queen.

This time, Yun Chujiu did not even use a warning. She directly released a small flame to burn these big ants.

Yun chujiu used the small flame to burn a path and continued to run.

Yun Chujiu didn't run far before she was blocked by a group of giant Blue Scorpions.

At this time, the ants behind her also quickly caught up.

There were scorpions in front and ants behind. They were all eyeing this piece of fat meat that was about to reach their mouths.

Although Yun Chujiu's small flame was powerful, it was still in its infancy stage. It was obviously not strong enough to deal with so many demonic insects.

Yun chujiu narrowed her eyes. Countless purple lightning bolts flashed in her eyes again.

Countless purple lightning bolts charged at the blue scorpions in front of her. Instantly, a burnt smell filled the air.

The little flame trembled subconsciously. Clearly, it was a little scared.

The Blue Scorpions immediately opened up a path like a tide. Yun chujiu did not even bother to look at them again. She continued to run at a high speed.

Following that, Yun Chujiu was attacked by several waves of demonic beasts. Although she was delayed for some time, she managed to reach the depths of the icy plain with the help of the little lightning in her eyes.

Yun chujiu suddenly stopped and looked in front of her in disbelief.

No, this was impossible!

Yun Chujiu's small body could not hold on any longer and she collapsed on the ground. The little lightning in her eyes also disappeared and she fainted.

When Yun Chujiu woke up, her eyes were staring at the ice wall in front of her. There was a person sealed in the ice. It was di beiming.

His eyes were closed and he was sealed in the ice expressionlessly.
