

## The Yun Family's Ninth Child is an Imp! Chapter 3177

Master Baili and the others listened to Yun Chujiu's words. They felt that they had one thing that they could not catch up to Yun Chujiu in this life, no, in the next life. That was that this girl's skin was really thick!

Yun chujiu chatted with the others for a few more sentences. It was nothing more than cleaning up the remnants of the Divine Devil Hall, the parties, and so on. Then, she left the meeting hall.

Master Baili suggested that she move to the courtyard at the peak of Dubhe Peak. However, Yun Chujiu waved her hand and refused. The courtyard she was living in now had memories of her and di beiming. How could she bear to move to another place!

From that day onwards, the people of the primordial chaos sect rarely saw Yun chujiu leave the courtyard. They did not cause any trouble anymore.

Everyone felt a little uncomfortable. Why did this bad guy suddenly turn over a new leaf?

Other than eating and sleeping, Yun Chujiu spent all her time cultivating. She had never felt such a sense of crisis in her heart.

Whether it was the Yun family or the Divine Devil Hall, they would find trouble with her sooner or later. She had to become stronger.

Unfortunately, her situation was special. After cultivating for a period of time, the Thunder Spirit Energy in her Dantian had reached a state of saturation,

she had to think of a way to be struck by lightning.

It was rare for Hei Xinjiu to not have the intention of having a thought hole. She had already destroyed three thought holes. If all of them were destroyed, she would be the eternal sinner of the Chaos Origin sect.

Yun chujiu pondered for a moment. It was not a solution to go on like this. She had to do something that went against the 'Heavenly Principles' and the Tian Dao.

Therefore, Hei Xinjiu left the chaos origin sect and began to wander around the entire immortal origin continent.

This fellow returned to the Mo family. Mo Cheng thought that Yun Chujiu was looking for him to settle the score and was so scared that he didn't even dare to show his face.

Yun chujiu couldn't help but laugh at herself. When she first came to the Mo family, she could be said to be treading on thin ice with trepidation. Now, the tables had turned.

After Yun Chujiu found Mo Cheng, she didn't do anything to him. In the end, Ye Lan and Mo Cheng only had their own motives.

Yun chujiu asked some questions about ye Lan. Mo Cheng naturally told her everything he knew. He was afraid that Yun Chujiu would destroy the Mo family if she was unhappy.

The things that Yun Chujiu asked from Mo Cheng were similar to what Li Niang said. There was no difference.

After Yun Chujiu left the Mo family, she really had nowhere to go. Hence, she went to the ancient ice long again.

The ancient ice long on the ancient Ice Long was really unlucky!

Yun chujiu, this fellow, felt that since there was no heavenly lightning to strike her for the time being, she would just practice her skills! The spiritual power of other demonic beasts was too weak, but the ancient Ice Long was a level 46 demonic beast, which was equivalent to a human's spiritual space between the seventh and eighth levels. It was really the best for her to practice her skills on it.

Yun Chujiu was not a match for the ancient ice long at the beginning, but this fellow ran away when he could not beat it. Moreover, he had the help of his spiritual pets. Although it was a little embarrassing, this fellow was never tired of it.

Therefore, the angry cries of the ancient ice long were often heard on the ancient ice field.

The ancient Ice Long was so angry that it was about to burst out!

This damn human! Its spiritual power was obviously much lower than its, but it could not catch Yun Chujiu. It was so angry that it was about to die!

Moreover, as time passed, the ancient ice long discovered that although Yun Chujiu's spiritual power level did not change, her movement technique was obviously much faster. At the beginning, she could only hold on for fifteen minutes, now, she could hold on for more than an hour.

On this day, Hei Xinjiu was 'communicating' with the ancient ice long when the sky turned dark.

Yun chujiu was overjoyed. The reason why she came to the ancient Ice Long was to be struck by lightning!

Because there were no divine weapons in the ancient ice long, she had nowhere to hide. That Old Bastard Tian Dao would definitely think that it was a good opportunity to strike her to death. Therefore, there was an eighty to ninety percent chance that heavenly lightning would strike her.
