

The Yun Family's Ninth Child is an Imp! Chapter 3187

Manager Liu wished he could slap Yun Chujiu to death, but he didn't dare to. He cursed angrily in his heart, "B * TCH, there's a time for you to cry!"! Let's wait and see!

After leaving Leaf City, manager Liu summoned his flying spirit tool.

After everyone boarded the flying spirit tool, they headed south.

Yun chujiu pondered in her heart. There was probably another passage from the immortal essence continent to the towering sky continent besides the boundless ice abyss. However, this flying spirit tool was much faster than the immortal essence continent's. When she arrived at the towering sky continent, she also got a few to play with.

Yun chujiu walked around the exquisitely decorated flying spirit tool and then drew something into her storage ring.

"OH MY, this lamp stand looks good. I'll keep it."

"This cushion is really beautiful. I'll keep it."

"This table looks quite unique. I'll keep it."

..

Manager Liu obviously didn't react at first. He stared at it with his mouth agape for a while and then shouted, "What are you doing? ! This is the princess'Flying Spirit Tool. All the things in it were chosen by the Princess!"

In order to let everyone praise her kindness and generosity, Princess Yun lent her flying spiritual device to manager Liu. If she knew that Yun Chujiu had a criminal record, she wouldn't have done this.

Yun chujiu continued to put the things in her storage ring and said, "The princess is either my aunt or uncle. Why should I make a fuss about taking her things? ! Get Out of my way!"

Manager Liu was about to stop her when he heard Yun chujiu say casually, "If you do anything, I will smash all these things. Then I will say that you did it. If you don't believe me, you can try and see who will be punished."

"You, you!" Manager Liu had never seen such a shameless person. He did not know what to say for a moment.

Yun Chujiu didn't care about him. Soon, the flying spiritual tool became empty, leaving only a lonely bed. Of course, this was because Hei Xinjiu wanted to lie on it. Otherwise, she would have put it away long ago.

Manager Liu was so angry that he gnashed his teeth, but he didn't dare to really attack Yun Chujiu. After all, Consort Yun had specifically instructed him to bring Yun chujiu back with him without leaving any loose ends.

Seeing her act like this, manager Liu could only endure it and make a rough guess. He couldn't help but sneer in his heart. As long as you have something in mind, I can make you submit obediently. Let's play slowly, there's no rush.

The flying spirit tool was very fast. Three days later, the group arrived at a valley in the south of the immortal Yuan continent.

The climate in the valley was humid and hot, and there were dense spirit plants everywhere.

Perhaps because manager Liu and his group's spiritual power was too high, no demon beasts came out to die. After walking for nearly half a day, Yun Chujiu saw a stone platform in the distance.

Some patterns were carved on the stone platform, and it looked very ancient. Could it be a teleportation array?

Who would have thought that there was a teleportation array hidden in the depths of this dense forest that led to the towering sky continent? !

Manager Liu took out a jade token from his storage ring and threw it into the air. He then began to form a seal.

The jade token suddenly shot out a beam of light and shone in the middle of the stone platform. The entire stone platform shone in all directions. It was obvious that the teleportation formation had been activated.

Manager Liu gritted his teeth and said, "Miss Jiu, Please!"

Yun chujiu slowly walked into the teleportation formation. Manager Liu and the others also entered the teleportation formation.

Manager Liu made another hand seal and the jade token returned to his hand. A dazzling light flashed in front of Yun Chujiu's eyes. After an unknown period of time, she finally stepped on the ground again..
