

The Yun Family's Ninth Child is an Imp! Chapter 3204

Consort Yun, Zheng Shi, frowned. "At the beginning of the year, when the Emperor summoned your father, he mentioned that your second uncle had a daughter in the immortal Yuan continent, but he didn't say anything else."

Your father thought that the emperor was hinting at him to bring that country bumpkin back, so he sent people to prepare to head to the immortal Yuan continent. Who would have thought that those people would be killed on the way?"

"What? killed? No wonder the guards who looked familiar disappeared. So they are dead. Mother, who did it?" Princess Xi Yue asked in surprise.

Zheng Shi shook her head. "Your father sent people to investigate, but they didn't find anything. Your father felt that there should be someone who didn't want that country bumpkin to come back. Anyway, we didn't want that country bumpkin to come back, so your father put this matter aside."

He did not expect that two months ago, the Emperor had once again mentioned that country bumpkin. Your father had no choice but to send someone to fetch that country bumpkin again. He originally thought that there would be someone who would stop him. He did not expect that this time, he actually successfully brought that country bumpkin back."

Princess Xi Yue frowned. "Mother, second uncle has been missing for several years. There is a high chance that he is already dead. Why must the emperor bring that country bumpkin back?"

Zheng Shi shook her head. "Your father and I are also puzzled. She is just a little girl, so we can bring her back. If it is a boy, then we can not keep him."

Princess Xi Yue's face flashed with suspicion. She gritted her teeth. "Mother, could it be that father deliberately brought her back to threaten the ye family?"

The Teacup in Zheng Shi's hand fell to the ground. "Xi Yue, what, what did you say?"

Princess Xi Yue held Zheng Shi's hand. "Mother, I know everything. You Don't have to hide it from me.". When she brought the ye family back, she wanted to ask second uncle about his whereabouts. But later on, my father clearly took a liking to that B * tch from the Ye family. Otherwise, you wouldn't have spent so much effort to send that B * tch from the Ye family away."

Zheng Shi's expression was ferocious. "Since you already know, I Won't hide it from you. I've long wanted to kill that B * tch from the Ye family, but your father sent many people to protect that B * TCH.

However, that B * tch from the Ye family was set up by me to go there. Your father has no way to enter. Moreover, that B * tch from the Ye family has already fallen into a thousand days of sleep. It Won't be long before she dies silently.

As for that B * Tch Yun Chujiu, I'll let her prance around for a few days for now. If It's your father's wish, then find a chance to kill her. If it's the emperor's wish, Let's not act rashly for the time being."

..

On the other side, Hei Xinjiu was lying on the bed, whimpering as she pondered on her next step. It was obvious that she wanted to gain a foothold in the Yun mansion. The most important thing at the moment was to cling onto the old prince and the Old Princess' thighs, otherwise, she would probably be harmed by her uncle's family until not even her bones were left.

Also, that crown prince seemed to hate her very much. It was really strange. She did not offend him, so why did he hate her so much?

Oh right, and where exactly was her mother sent to? She had to find an opportunity to find out.

Hei Xinjiu was a little tired after going through all this. In her half-asleep state, she heard a voice. When she opened her eyes, she saw Zheng Shi accompanying an old man into the bedroom.

“Little Jiu, this is imperial physician Wang. Let him take a look at you,” zheng Shi said gently. If outsiders looked at it, they would think that this aunt was very concerned about her little niece that she had just found, she was more concerned about her than her own daughter.

Yun chujiu smiled weakly. “Thank you for your trouble, Imperial physician Wang. My body has always been weak. I often feel dizzy and faint. Maybe it’s because I’m an orphan, so I’ve suffered too much. Unlike sister Xi Yue, who has a strong body. She pushed me lightly and I fell to this state.”

Zheng Shi:” ...”
