

The Yun Family's Ninth Child is an Imp! Chapter 3244

He Shi's heart was filled with joy, but on the surface, she said with a faint smile, "You Little Lass, you're spouting nonsense. The matters of this royal residence are all controlled by Zheng Shi, how could she possibly give me some?"

"Third aunt, even if she, Zheng Shi, is arrogant and despotic, doesn't she still have grandmother above her? Anyway, I heard that grandmother plans to hand over the clothes and cosmetics of the people in the residence to you." Yun Chujiu said with a smile.

When the He Shi heard this, she couldn't help but feel slightly excited. These two jobs were both lucrative. Although she wasn't short of money, who would complain about having too much money!

Moreover, as long as she took care of these two matters, she could arrange for her own people. No matter what, it was a great thing.

Yun chujiu glanced at the joy in the He Shi's eyes, she sighed softly. "Third aunt, even if I don't tell you some things, you still know about them. In the Cloud King Manor, only grandmother and third aunt can rely on me. As long as I can help, I won't say anything else. Third aunt, please take care of me more in the future."

He Shi's heart turned a few times. She and Zheng Shi weren't on good terms to begin with. Although this little ninth lass was on her own, she had the old consort behind her, so they could work together. In any case, it didn't really matter.

When she thought of this, he shi smiled and said, "You child, third aunt will naturally take care of you."

Yun chujiu smiled, she lowered her voice. "Third aunt, there are some outrageous things that I can only say to you. "I heard that the position of crown prince is not that secure. The reason why he likes sister Xi Yue is because of the Yun family army in first uncle's hands. "In other words, whoever controls the Yun family's army is the Master of King Yun's residence."

He Shi was shocked. She obviously didn't expect Yun chujiu to be so straightforward. She couldn't help but tremble slightly as she said, "Little Jiu, you... What do you mean?"

"Third aunt, I don't mean anything. I just need to grab hold of my life when I do things. Otherwise, there's really no use for some small fights in the house. "Also, third aunt, you don't have to worry about me. What can a lonely little lass like me do? "Yun chujiu calmly replied.

He Shi's heart pounded violently. The thoughts that she had been suppressing all this while once again rose up in her mind, she spoke with a trembling voice, "You, you have a way to obtain the Tiger Talisman of the Yun Clan Army? Also, even if you obtain the Tiger Talisman, it's useless. How would the Yun Clan Army listen to your third uncle's orders? !"

"Third aunt, there are some things that I don't have to tell you. Grandfather is extremely disappointed with uncle. The reason why he didn't submit a petition to cripple uncle was because he was afraid of the Tiger Talisman in his hands.

It was useless for others to have the Tiger Talisman, but when the Tiger Talisman was in grandfather's hands, the Yun family army would naturally listen to his orders. At that time, grandfather would cripple uncle, and third uncle would have made a great contribution. Third aunt, your mother's family is Prince Ping's residence, so the throne would naturally fall to third uncle.

Third aunt, at that time, you were Consort Yun, Sister Xilian was Princess Xilian, and brother Zhichen was the crown prince. How Wonderful!"Yun Chujiu said with a faint smile.

The scene that Yun Chujiu described had already been described countless times in the He Shi's mind. All along, she felt that she was more suitable for the title of consort Yun than the Zheng Shi. How could she not be moved by Yun Chujiu's words.

"Little Jiu, do you have any way to obtain the Tiger Talisman?"He Shi asked in a trembling voice.

“It’s very simple. Find a woman that can interest my eldest uncle and create a few coincidental encounters. Then, get that woman to ignore him. He will naturally think of a way to please that woman.

Then, get that woman to think of a way to get him to take out the tiger talisman for her to see. Once the Tiger Talisman is in his hands, he must immediately deliver it to grandfather. This is to prevent any more trouble.”
