

The Yun Family's Ninth Child is an Imp! Chapter 3253

Zheng Shi was so angry that she almost vomited blood. She had originally come to settle the score with Yun Chujiu, and at the same time, brought out the source of her spirit stones so that she could teach the old imperial consort not to favor Yun Chujiu.

She did not expect that before she had the time to do so, she would have to use the public accounts to reimburse this B * Tch with 25 million high-grade spirit stones.

Zheng Shi's expression was stiff as she said, "Mother, 25 million is not a small amount. If we reimburse Little Jiu, I'm afraid the other three branches will have objections."

The old imperial consort snorted coldly, "If anyone has objections, let him come to me. Little Jiu's monthly salary for so many years is not just this amount. Since the money is for little jiu, she can spend it however she wants. What objections do they have? !"

Zheng Shi's face was flushed red from the rebuke. She could only clench her teeth and say to Yun Chujiu, "Since that's the case, Little Jiu, you can go to the accounts room later to withdraw the Spirit Stones!"

Yun Chujiu said with a smile, "Then thank you very much, aunt! I knew that aunt was sensible and would not mistreat this niece of mine."

Zheng Shi and Princess Xi Yue said a few more words without embarrassment, and then left in embarrassment.

Seeing that Zheng Shi and her mother had left, Yun Chujiu hugged the old imperial consort's arm and said, "I knew that Grandmother would not blame little jiu. Grandmother is the best!"

The old imperial consort pulled a long face, she glared at her. "You are really too willful! Puppets are really useless. Sigh, but since you like them, just buy them! "Oh right, where did you get so much money? "Didn't you say that you only had ten million in your hand?"

Hei xinjiu giggled. "Grandmother, isn't this not revealing your wealth? I still have some money. In the future, whatever you like, I will help you buy it back! Your granddaughter is really rich!"

The old princess poked her forehead with her finger and scolded her with a smile, but she didn't take it to heart. She felt that Yun Chujiu said that she was rich, but she only had a few tens of millions at most. How much money could a little girl have!

On the other side, Zheng Shi and Princess Xi Yue were not in such a good mood.

Princess Xi Yue gritted her teeth and said, "Mother, what should we do? That slut is getting more and more arrogant! That old fool will give all her money to that slut sooner or later!"

Zheng Shi said coldly, "Don't be impatient. If there's a suitable opportunity, mother will naturally kill that B * Tch!"

The mother and daughter spoke for a while more. Nanny Sun came in from outside and wanted to say something but hesitated.

Zheng Shi frowned. "What's the matter?"

"Madam, the informant beside the Prince said that the prince has been getting close to a woman called Su Lianxin recently. That woman looks a little like Lady Ye," Nanny Sun said carefully.

Zheng Shi immediately threw the teacup on the ground. "He's really infatuated! He couldn't find the main person, so he found a substitute! Immediately bring someone to capture that little, slut, person for me!"

Granny sun said with difficulty, "I'm afraid, I'm afraid that he can't be captured. I heard that Su Lian vowed to never obey, so the lord sent many guards to keep an eye on her, afraid that she would escape."

Zheng Shi became even more furious when she heard that. "Good! Good! He's really a slut! The more people ignore him, the more he wants to chase the Son!"

Princess Xi Yue saw that Zheng Shi was extremely angry, she hurriedly advised, "Mother, calm down. He's just a slut, why are you so angry. Father is just trying to get something new. When he gets it, he won't care so much. When the time comes, you can deal with that slut."

Zheng Shi's expression softened a little. Then, she said to granny sun, "Send someone to keep an eye on it. If there's any movement, report to me."

"Yes!"
