

The Yun Family's Ninth Child is an Imp! Chapter 3259

Yun Xilian handed Yun chujiu a porcelain bottle. "The antidote to the fiery red crown snake is inside the bottle. Keep it well. If you get bitten, take one immediately."

Yun chujiu nodded. No matter what Yun Xilian's motive was, at least they were allies now. It was not bad for them to be on good terms for the time being.

Soon, Yun Zhifeng and the others started fighting with the fiery red crown snake.

Hei xinjiu naturally would not rush up foolishly. She hid far away and observed the situation in front of her.

This guy thought to himself, no wonder they were using the family as a unit. There were more than a dozen fiery red crown snakes on this fiery tree. If there were fewer people, there would be no way to deal with them.

Yun chujiu pondered for a moment. According to Yun Xilian, the fiery red crown snake was equivalent to a human's third to fourth level spirit illusion. Looking at the situation, Yun Zhifeng and the others'spiritual power levels should be around the third to fifth level spirit illusion. In comparison.., she was indeed very weak!

Yun chujiu also discovered that Yun Zhifeng and the others used their spiritual power to attack and did not release their spiritual beasts. What was the reason?

Wouldn't it be more convenient to release their spiritual beasts? Moreover, they could avoid being poisoned. were they stupid?

However, Yun Chujiu knew that she was new here and did not know many things. There must be some other reasons.

Hei Xinjiu felt that it was not good for her to just stand there. If she did not put in any effort, she would be too embarrassed to share the fiery fruits later. Therefore, this guy stretched his neck and shouted, "Brothers and sisters, do your best! I will support you spiritually!"

"Go! Yes! Hurry up! Kill one and you will lose one!"

"Hurry Up! Otherwise, the other families will harvest more than us. Put in more effort!"

..

Yun Xi Luo and the others were so angry that they gritted their teeth. This damn country bumpkin! She was light-footed, standing there without putting in any effort. It was really hateful.

However, now was obviously not the time to care about these things. After an hour, the Yun family finally killed all the fiery red crowned snakes on this fiery fruit tree.

Everyone impatiently began to pick the fiery fruit. Hei Xinjiu shamelessly went up to pick the fruit as well.

Seeing that no one objected, this fellow could not help but feel happy. It seemed that it was not bad to make up the numbers!

Unexpectedly, after all the fruits on the tree had been picked, Yun Zhifeng said, "Everyone, hand over the fiery fruits to me. I will preserve them all."

As Yun Zhifeng spoke, he took out a bamboo basket. Everyone put the fruits in it. Hei Xinjiu also put the fruits in the bamboo basket, but this fellow secretly left two.

This guy thought that since there was no specific number of the fruits, no one would know that she left two.

Unexpectedly, Yun Xi Luo said with a sneer, "Yun Chujiu, I clearly saw you pick eight fruits, why did you only give me six?"

Wasn't it embarrassing to be found out by others?

If it were an ordinary person, they would have long found a hole to hide in.

However, hei xinjiu obviously did not know what integrity was, she said with a smile, "Sister Xi Luo, you really have sharp eyes. I did leave two fruits. Because I have never seen the fiery fruits before, I plan to observe them carefully."

Yun Xi Luo snorted coldly, "Don't tell me you want to hide these fruits and sell them? I'll tell you the truth. Selling the fiery fruits privately in the Dongfeng Kingdom is a capital offense. Just give up on that idea!"

"Heaven and earth, how would I dare to have such an idea? I'm really just curious." Yun chujiu held back her saliva and put the two fiery fruits into the bamboo basket.
