

The Yun Family's Ninth Child is an Imp! Chapter 3278

Everyone turned around and saw Yun Chujiu standing at the door with a smile on her face.

The old imperial consort turned around and immediately felt relieved. It was good that Little Jiu was fine.

The state preceptor's expression didn't change much. He said indifferently, "Since you still have the fiery fruits, hand them over."

Hei Xinjiu slowly walked to the state preceptor and glanced at the current ranking. She handed the state preceptor dozens of fiery fruits.

After the Grand Tutor finished counting, he found that the number of fiery fruits in the Yun mansion was ranked sixth, which was below the princes and above the other nobles.

The Grand Tutor's eyes twitched slightly. This Yun Chujiu was as smart as the old Duke Yun.

Seeing that no one had any objections, the grand tutor began to distribute the divine Phoenix Stone. When Yun Zhifeng was about to receive the Divine Phoenix Stone, Hei Xinjiu squeezed in front of him and put the Divine Phoenix Stone into her storage ring.

Yun Zhifeng's expression immediately darkened, but he did not dare to lose his temper in the Divine Hall. He glared at Yun Chujiu with hatred and then left.

After the Divine Phoenix Stone was distributed, the Imperial preceptor began to preside over the sacrificial ceremony for the divine wind birthday.

It was nothing more than a few eulogies, and then he placed the fiery fruits on the altar. From the first layer to the ninth layer, it was filled with fiery fruits.

Hei Xinjiu cursed in her heart. What a waste! That so-called divine Phoenix was long dead. How could it possibly enjoy these fiery fruits?

However, hei xinjiu was stunned to discover that the fiery fruits were actually decreasing at a speed visible to the naked eye. Oh My, could it really have been eaten by that divine phoenix?

At this moment, the Imperial preceptor asked Yun chujiu about the Phoenix Egg again. Hei xinjiu described it vividly, just like what the others said. The Imperial preceptor did not say much and indicated that everyone could leave the Divine Hall.

At this moment, no one expected that the altar would suddenly burst into flames. The Phantom of a five-colored Phoenix appeared in it.

Everyone was shocked at first, then they knelt on the ground. Even the imperial preceptor, who had always been calm, knelt on the ground.

While everyone was pleasantly surprised, they also felt a little uneasy. Could it be that the Divine Phoenix came to settle the score with them because of the Phoenix Egg? To be honest, the Phoenix Egg was eaten by the demonic beasts. This had nothing to do with them!

Only Hei Xinjiu was kneeling on the ground, looking at the five-colored Phoenix in the raging fire and marveling, she used her spiritual sense to speak to Xiao Heiniaio, "Xiao Hei, look at his feathers. This is a real Phoenix! Compared to him, you are like an ugly duckling and a White Swan."

Xiao Heiniaio was furious!

"Master! You have disappointed me! I didn't expect your taste to be so bad! Is this called beauty? This is called vulgarity! My black feather is so luxurious and high-class. Can this coquettish B * Tch Compare to me? !"

Yun Chujiu's eyes twitched. Xiao Hei did not learn anything else from her, but his skin was getting thicker.

Xiao Heiniaoyang ignored the little black bird and stared at the Phantom of the Phoenix with narrowed eyes. What was this thing trying to do?

At this moment, the Phantom of the Phoenix cried out, "Clang, Clang, Clang..."

The imperial tutor and the others were even more reverent. They did not even dare to look at the Divine Phoenix. They had been lucky enough to see the Divine Phoenix appear.

After the Phoenix called out a few times, it spoke in human language, "I am very happy with the nine daughters of the Yun family. Please come forward quickly."
