

The Yun Family's Ninth Child is an Imp! Chapter 3299

Yun chujiu frowned. "Fifth brother, why did Leng Tianche suddenly make a move? Logically speaking, he doesn't have such courage and ruthlessness."

Yun Zhichen shook his head. "I'm also very puzzled. Previously, our progress was very smooth, but almost overnight, the matter was completely overturned. Sigh, time and fate, Little Jiu, you should seek your own fortune!"

Yun chujiu could not help but laugh coldly. "Fifth brother, do you think that I'm the only one who wants to seek my own fortune? Third aunt has always been on bad terms with the Zheng Shi. Once the civil and Martial Emperor has a firm foothold, not to mention the three of you, even the Prince Ping's estate would probably not be able to escape."

The expression on Yun Zhichen's face changed from helplessness to shock and panic. He did not doubt the possibility that Yun Chujiu had mentioned.

The new emperor had to find a target to establish his power. Prince Ping's residence was undoubtedly a good choice. It was famous and did not have the protection of the Yun family army. It was perfect for establishing his power.

Yun Zhichen's body was immediately drenched in cold sweat. He had originally thought that he would be able to keep his life if he kept quiet. Now it seemed that he was too naive.

Yun Chujiu didn't say anything all this while. She just chewed on the spirit fruit in her hand.

Yun zhichen gritted his teeth. "Little Jiu, what do you want to Do?"

"Naturally, I want to replace you. I'll help you take the throne. Don't worry, I'm not interested in the throne. I'm helping myself by helping you. I just want to live freely. I hate the feeling of powerlessness when I'm restricted by others."

Yun zhichen laughed bitterly. "Little Jiu, let's not talk about whether the throne is the throne or not. We're completely in a passive position now. How can we replace him?"

Yun chujiu curled the corners of her lips and whispered a few words to Yun Zhichen. The expression on Yun Zhichen's face gradually changed from suspicion to shock.

"Little Jiu, although the method you mentioned sounds good, don't forget that there's another person who might ruin our plan."

"Are you talking about the imperial tutor?" Since he had not expressed his opinion on such a big matter like Martial Emperor Shengwu's death, it was clear that he was not prepared to get involved in this muddy water. After all, he has the Li hate palace behind him. No one who becomes the emperor would dare to provoke him." Yun Chujiu said with a faint smile.

She only found out recently that no wonder the imperial tutor was so awesome. No wonder the emperor did not dare to do anything to him. It turned out that the imperial tutor was a member of the Li Hate Palace.

Speaking of the Li Hen Palace, it was said that it was an extremely awesome force. Compared to the Li Hen Palace, the strength of the East Phoenix Kingdom was like the Sun and candlelight. There was no comparison at all.

Yun Chujiu had a vague idea in her heart. The imperial tutor that the Li Hen Palace had sent to the four countries was like an imperial envoy. He was above all the nobles and could control the four countries at any time. Moreover, it was the kind of control that could be brainwashed, he was really powerful!

Yun zhichen nodded. "Little Jiu, since that's the case, let's move separately."

"Okay!"

..

After Yun Zhichen left, Yun chujiu hopped into the old Prince's study.

The old prince had aged quite a bit recently. It was obvious that it was because of the recent changes.

The old prince saw Yun Chujiu and smiled. "Little Jiu, didn't you just come here this morning? Why are you here again?"

Yun chujiu sighed faintly. "Grandfather, I've always wanted to say something to you, but I didn't know how to say it. After thinking about it, it's better for me to say it."

The old Duke frowned. "If you have something to say, just say it. What do you want to say?"

"Grandfather, Our Yun family is going to be finished! Perhaps even our ancestral grave will be dug up!" Yun Chujiu said with a sorrowful expression.
