

The Yun Family's Ninth Child is an Imp! Chapter 3305

After sending off the old prince, the freshly made Empress Jiu valiantly and valiantly went to the Divine Hall.

The National Master gave her quite a bit of face and immediately got someone to let Yun Chujiu in.

Yun chujiu beamed as she took out some precious spirit herbs and handed them to the National Master. "National Master, we share honor and disgrace. It's all for the sake of the Divine Phoenix and the East Phoenix Kingdom. Please take care of us in the future."

The Imperial preceptor smiled as he put the items away. Then, he said, "After three days, I will look at you in a new light. Your Majesty is truly unexpected!"

Yun Chujiu's smile became even more radiant. "Imperial preceptor, this is all thanks to the Divine Phoenix. I am also very helpless."

The corners of the Imperial Preceptor's eyes twitched. If the smile on your face was not so radiant, your words would be more believable.

The two of them exchanged a few more pleasantries before Yun Chujiu asked, "Imperial tutor, the reason I came this time is firstly to see you. Secondly, I want to ask if you know the reason behind Leng Tianche's sudden attack and his sudden disappearance?"

The imperial tutor smiled faintly. "As the imperial tutor, I am only responsible for the Divine Phoenix and the blood oath. I will not interfere in other matters, so your Majesty should not ask too much."

Yun chujiu pursed her lips in her heart. This old charlatan was really tight-lipped. She did not believe that the Li Hen Palace was so powerful. How could they not know about it?

However, since the imperial tutor did not say anything, it was not appropriate for her to ask anymore. After exchanging a few more pleasantries, she left.

After Yun Chujiu returned to the Imperial Palace, she immediately gave the order to find the whereabouts of Leng Tianche and Princess Xi Yue. She also sent many people to find the whereabouts of Yun Fengjin and Ye Lan.

Hei Xinjiu occupied the huge imperial palace all by herself. After a few days of excitement, she felt that it was no longer interesting.

She pondered over the recent events and felt that there must be something fishy going on. However, she did not have any leads.

She recalled that Xue Wuji said that Di Beiming was seriously injured when he visited the Yun family to find Ye Lan. Now that she thought about it, she felt that there was something fishy going on.

Di Beiming's spiritual power should be much higher than the Yun family's. How could he be seriously injured?

Yun Chujiu wanted to go to the immortal Yuan continent to ask Xue Wuji about it. However, although she was now the female emperor of Fenghua, she was too weak. It was better for her not to go out and show off.

This guy cherished his life very much. He picked hundreds of guards with high spiritual power from the Yun family's army and constantly patrolled the palace.

This guy felt that it was really inconvenient for the towering sky continent to not have the heart demon oath. Otherwise, she would feel much more at ease.

This guy had already understood the so-called blood oath. To put it bluntly, the blood oath meant that both parties signed a contract in front of the Imperial preceptor, with the Lihen palace as the guarantor.

What was the use of this? !

No one knew what the Lihen Palace was. If the people inside were not good people, the blood oath would be of no use at all. It could only fool ordinary people.

In the following period of time, Yun chujiu only eliminated some of Leng Tianche's followers. She did not make any major changes to the personnel. This fellow knew that she had used a large kitchen knife to force her to take the throne. If she made too big a move., it was easy to cause a rebellion. It was better to simmer it down and take it slowly.

This fellow knew the importance of public opinion. He asked Meng Yanshou to weave a dream for some of the citizens of an city. Soon, news spread that the female emperor of Fenghua was chosen by the Divine Phoenix. She was the best candidate to adapt to the right time, place, and people..

At the same time, Meng Yanshou often came to an city to do good deeds. Today, he saved a child who was almost trampled by a wildebeest, and tomorrow, he saved an old man who was on the verge of death..
