

## The Yun Family's Ninth Child is an Imp! Chapter 3325

Prime Minister Sima thought about it and agreed. If he left, it wouldn't be good if there was no one here to hold down the fort. He could only suppress his excitement and sit down again. Then, he looked at the competition stage.

Now that Prime Minister Sima saw that all of them had won, he felt that this was the descent of a fairy from heaven!

Her name was well chosen! All of them had won!

As expected, she had won as soon as she went up!

He had decided that in the future, when selecting candidates, he would specifically pick those with auspicious names, such as eternal victory, undefeated, and champion..

The subjects of East Phoenix Kingdom were so happy that they were going crazy! Hahaha! Their East Phoenix Kingdom had finally been able to hold their heads high! That all-win had won first place as soon as they went up. As expected, it was their East Phoenix Kingdom's mascot!

Alright, these people had completely forgotten how they had won against all of them with flying-eye Knives!

The people of East Feng Kingdom were happy, and the expressions of Emperor Nan Xuan and the other two were extremely unsightly!

Not only had all of them won, but they had also won with a crushing advantage. The results of the three people from East Feng Kingdom added together had actually won first place. It was simply unbelievable!

Originally, they had wanted to laugh at Empress Jiu in the afternoon. But now, they could see how Empress Jiu would be showing off when she arrived in the afternoon!

Emperor Nan Xuan and the others did not doubt the results of the competition, because those referees were transferred from the four countries, so it was impossible for them to cheat.

Finally, the host announced the final result of the alchemy competition. As expected, the East Phoenix Kingdom won first place!

The subjects of the East Phoenix Kingdom and prime minister Sima were ecstatic once again. It didn't matter if the East Phoenix Kingdom was at the bottom of the other events. At least they had won the alchemy competition.

Emperor Nan Xuan curled his lips. "Look at how promising the East Phoenix Kingdom is! We've won so many first places in the past, but we're not as smug as they are!"

Emperor Xiwen echoed, "That's right. It's no wonder. The East Phoenix Kingdom hasn't won the first place in eight hundred years. It's not easy for them to get it, so they naturally get carried away!"

Emperor bei Jing said disdainfully, "Didn't you hear that they all won? She just happened to win by accident. She's not a talented pill-making seedling at all. What's there to be happy about?!"

..

At this moment, the contestants on the stage left the stage one after another, all winning and leaving the stage. Before the subjects of the East Phoenix Kingdom could surround them, the royal guards had already taken them away under strict protection.

When Emperor Nan Xuan saw this, he sneered in his heart. Did he really think that she was a treasure? She was just lucky!

After resting for two hours at noon, before the start of the array competition, Empress Jiu's luxurious palanquin arrived.

It was the same as the day before. All kinds of shameless slogans were written on the flag. The palace maids laid down the ground-shaking snow cashmere carpet, and then everyone knelt down to invite empress jiu.

Empress Jiu slowly got down from the sedan chair. Unlike the bright red she wore the day before, today she wore a dress that was as white as snow. She was floating in the air like a fairy.

Empress Jiu looked around and then said indifferently, "Rise!"

After Empress Jiu walked to the VIP area, she had just sat down when prime minister Sima said with a trembling voice, "Your majesty, we have won the first place in the pill refining competition!"

Empress Jiu only said indifferently, "Yes, I know. Prime Minister Sima, you are already quite old. You should be calmer when you encounter things.

Isn't it just obtaining the first place? What's there to be excited about? If you were to obtain a few more first places, wouldn't you go crazy?"

Prime Minister Sima:" ..."
