

The Yun Family's Ninth Child is an Imp! Chapter 3334

There was a withered tree in the enchantment. The blood-sucking warblers landed on it and stared at Bi Xuying fiercely.

They were obviously afraid of the others. They did not attack Bi Xuying immediately. Instead, they flapped their wings tentatively.

The contestants frowned. These blood-sucking warblers were different from other demon birds. They were very united. If they were not careful, they would be surrounded by these blood-sucking warblers. They had to act cautiously.

The three contestants from Bei Xuan Kingdom were obviously calmer. They all had the experience of successfully controlling the blood-sucking warblers. However, these blood-sucking warblers had just been let in, and their stamina was at its peak. It was better to wait a little longer.

The other two contestants from Dong Feng Kingdom glanced at Bi Xuying and warned in a low voice, "These blood-sucking warblers are very fierce. Don't stay far away from us, lest you are attacked by them."

A faint light flashed in Bi Xuying's eyes, and she nodded. "Thank you, both of you. I'll be careful."

Seeing that the little girl had been following closely behind the other two contestants from the East Phoenix Kingdom, the blood-sucking warblers didn't act rashly.

They were quite intelligent, so they naturally understood that these people were here to control them. It was simply wishful thinking! The blood-sucking warblers would rather die than become the spiritual pets of foolish humans.

Thus, both sides were in a stalemate for a period of time.

Finally, the blood-sucking warblers could not hold back anymore!

They had been starving for several days. How could they hold back when food was right in front of their eyes? ! Moreover, they knew that these people were here to control them and would not take their lives, so they had nothing to fear!

They still regarded Bi Xuying, who had the weakest spiritual power, as their primary target. Almost in an instant, all the blood-sucking warblers swooped down in Bi Xuying's direction.

Bi Xuying had been staring at the blood-sucking warblers for a long time. Seeing them swooping down, this fellow began to shuttle back and forth among the crowd, shouting as he ran:

"Oh my God! Are these birds crazy? Why are they attacking me! Help!"

"Uncle, it's an emergency! Please, quick, help me block them!"

"Brother, I can tell that you're not ordinary. Quick, hurry up and Attack!"

..

The contestants from the other three nations were so angry that they were twitching. You're too mean! You're attracting trouble!

But there was nothing they could do. The blood-sucking warblers were so hungry that their eyes were red. Seeing bi Xuying running around, some of them were still chasing after her, while some of them simply attacked the other contestants.

The contestants had some leeway. After all, their ultimate goal was not to kill the blood-sucking warblers, but to control them. Therefore, the blood-sucking warblers had nothing to fear and attacked even more crazily.

Both sides fell into a chaotic battle. Of course, Bi Xuying had only been running around screaming and did not have any strength left to fight back.

However, it was strange that none of the blood-sucking warblers managed to peck her. In the end, the blood-sucking warblers simply gave up on her and turned to attack the other contestants.

When Bi Xuying saw that there were no more blood-sucking warblers chasing her, she plopped down on the ground and sighed:

“Aiy, this competition is too difficult! If I knew this would happen, I wouldn’t have participated in it! Other competitions only test the contestants’abilities. This beast taming competition is simply fatal!”

The subjects of the East Phoenix Kingdom originally had high hopes for this little girl who was also of the “Win”generation. Now that they saw her, they were instantly discouraged!

Let alone winning, this fellow was probably blessed by the Divine Phoenix to be able to keep his little life!
