

The Yun Family's Ninth Child is an Imp! Chapter 3335

Soon, two hours passed.

Although the blood-sucking warblers were not successfully controlled, their feathers were messy and they flew back to the withered tree in a sorry state.

Their spiritual power level was not as high as these contestants. If it were not for these contestants trying to control them, they would have died a long time ago.

The three contestants from Bei Xuan Kingdom looked at each other and then walked to a place not too far away from the withered tree.

The three of them each took out a pill. Obviously, the pill had a strong attraction to the blood-sucking warbler. The blood-sucking warbler began to become anxious. A few of them flew away from the withered tree, but when they were halfway there, they flew back again, it was obvious that they were very conflicted.

When the people from the other three kingdoms saw this, their hearts turned cold!

The Bei Xuan Kingdom was indeed good at Beast Taming. They had obviously come prepared.

These blood-sucking warblers were already extremely hungry. The pills in the hands of the three men from the Bei Xuan Kingdom were even more attractive to them. Perhaps a few of them would give in.

As time passed, the blood-sucking warblers on the withered tree rose and fell frequently. A few of them had even reached the vicinity of the three men from the Bei Xuan Kingdom, but they had not made up their minds yet.

Emperor bei Jing had a smug look on his face. Their bei Xuan Kingdom would definitely win this beast taming competition! And it would be a complete victory! The other three kingdoms would probably not be able to successfully control a single blood-sucking warbler.

The three people of Bei Xuan Kingdom also had smug looks on their faces. It was not that they were bragging, but in terms of beast taming ability, these people were not their match at all.

At this moment, they heard a wicked voice say, "Hey, those little B * stards, aren't you the most courageous ones? Don't tell me you don't have any moral integrity just because of a Pill?"

Little B * stards?

Those blood-sucking warblers were so angry that they couldn't even fly!

They looked towards the voice and saw that the little girl with the weakest spiritual power was looking at them with a wretched smile.

The blood-sucking warblers were instantly enraged! The feathers on their bodies exploded! This detestable little girl actually dared to scold them. She was simply courting death!

Therefore, all the blood-sucking warblers couldn't care less about the lousy pill! They charged towards Bi Xuying once again.

Bi Xuying did the same trick again. She ran all over the field with a whoosh. As she ran, she said, "A little B * Tch is a little B * Tch! Why are you chasing after little miss for no reason? ! Do you think that little miss is prettier than all of you?"

The spectators were all stunned!

Was this Bi Xuying crazy? She was playing tricks on them!

Wasn't she afraid that these blood-sucking warblers would kill her?

The three contestants from Bei Xuan Kingdom were so angry that they were about to Puke! They were about to succeed, but they were interrupted by this stinky girl. It was really too hateful!

Therefore, when Bi Xuying ran over, the three of them deliberately blocked her way. They were very pleased with themselves. It was not convenient for them to deal with this stinky girl, so they let the blood-sucking warblers kill her.

Unexpectedly, Bi Xuying took out a large piece of demonic beast meat from her storage ring and threw it into the distance. Then, she said, "This is a gift from miss. Go and eat it!"

When the blood-sucking warblers smelled the smell of blood, they immediately gave up attacking Bi Xuying and swarmed toward the piece of demonic beast meat like a swarm of bees.

Bi Xuying looked at the three people from Bei Xuan Kingdom provocatively, then, she said, "You guys are really despicable! You actually used drugs to seduce the little B * tches. Although those little B * tches are a little stupid, they are still creatures born and bred. What you guys are doing is simply an insult to them."

The three people from Bei Xuan Kingdom felt as if they were bickering with dogs in their hearts!

If you call them little B * tches, it doesn't matter if you call them stupid. But if they use drugs, are they despicable? Is that really a good double standard?
