

The Yun Family's Ninth Child is an Imp! Chapter 335

“How about this, Little Jiu. I’ll first teach you the simplest hemostatic pill to see if you have the potential to refine pills. Come with me.” Elder Qi brought Yun Chujiu directly to the pill refining room up front.

Manager Gao saw that Elder Qi had arrived and hurriedly came forward to welcome him. “Elder Qi, is there anything you need?”

“Open up an alchemy room. I want to teach Yun Chujiu how to refine a hemostatic pill.”

What the hell?

The surrounding disciples were instantly shocked!

Elder Qi was a Grade Eight alchemist. Not just in Spirit Radiance Sect too! He was one of the few in the entire Qingxuan continent. Now, he actually wanted to personally teach Yun Chujiu how to refine a grade one hemostatic pill?

Was that not overdoing it?! He could just find someone else to teach her, right?!

Moreover, was Yun Chujiu not already accepted as Elder Sun’s personal disciple? Why did Elder Qi still want to teach her?

Everyone’s gazes shifted to Ding Lang, whether intentionally or unintentionally.

Although Ding Lang was Elder Qi’s true disciple, Elder Qi was always focused on refining pills and rarely gave him pointers. Now, he was personally giving pointers to an outsider like Yun Chujiu.

“Master, the hemostasis pill is only a grade one pill. There’s no need to trouble you to do this. Let me teach Yun Chujiu!” A trace of malice flashed through Ding Lang’s eyes. This Yun Chujiu first became enemies with my younger brother, and now she’s trying to humiliate me. Sooner or later, I’ll cripple her.

Elder Qi felt that Ding Lang’s words were not without reason, so he nodded. “Alright, since that’s the case, I’ll let you demonstrate and I’ll explain it to Little Jiu.”

Ding Lang felt even more uncomfortable in his heart. ‘You’ve never cared about me this much. What kind of bewitching potion did Yun chujiu give you that you’re actually so partial to her?!’

Ding Lang demonstrated the refining method for the hemostasis pill. An hour later, Ding Lang opened the lid of the pill furnace, and a wave of medicinal fragrance wafted into the pill refining room.

The disciples gathered around and cried out in surprise when they saw the pills at the bottom of the pill furnace.

“Heavens! An 80% success rate, and six of them are high-grade pills!”

“Senior Brother Ding Lang is indeed our Middle Peak’s alchemy senior! Such a success rate is too amazing!”

“That’s right, Senior Brother Ding Lang will advance to a grade five alchemist very soon. Such a talent can be said to be rare in Qingxuan continent!”

...

Elder Qi nodded slightly. Ding Lang’s aptitude was not bad, but he was a little impetuous.

“Yun Chujiu, do you want to give it a try?” Ding Lang pretended to be enthusiastic as he asked.

“Sure! This pill refinement isn’t that difficult! It looks like it’s similar to the congee in the big kitchen, and it’s not as troublesome as stir-frying vegetables!” Yun Chujiu said with a smile.

“Since that’s the case, then come over and try it!” Ding Lang said disdainfully. ‘Humph! She’s just a good-for-nothing at the fourth level of the Spirit Enhancement realm. Does she really think that pill refinement is that simple?! I want to see how she will lose her honor!’

Elder Qi frowned slightly. ‘Why is this Ding Lang so reckless?! Yun Chujiu just watched it once. How could she possibly pick it up?! This Little Jiu is too much too. Did she really think that refining pills was that easy? However, it’s also good in a way. She would be able to stay calm in the future if her spirit was dampened.’

Yun Chujiu walked to the front of the pill furnace and prepared to refine pills.

Manager Gao suddenly said, “Yun Chujiu, wait a moment! Everyone, quickly prepare the cloth and handkerchief, or else you might suffer later! Elder Qi, you should also make some preparations. Every time this Yun Chujiu concocts pills, we burst into tears. It’s simply comparable to poisonous smoke!”

Yun Chujiu touched her nose unnaturally and coughed dryly, “Don’t worry! Don’t worry! This time, it won’t happen! I was just fooling around previously. With Elder Qi’s explanation this time, I’ve already understood everything. I definitely won’t release any poisonous smoke this time.”

The more Yun Chujiu said that, the more worried the surrounding disciples became. Sure enough, everyone took out a piece of cloth and prepared to cover their mouths and noses for a while.
